Label/Short Name	Description		CDC Priority (Legacy)	CDC Priority (New)
		using the following link (https://phinvads.cdc.gov/vads/SearchH ome.action)		
Notification ID Receiving Application	The unique identifier for the notification record CDC's PHIN Common Data Store (CDS) is the Receiving	· · · · ·		
Message Profile ID	Application for this message. First instance is the reference to the structural			
	specification used to validate the message. Second instance is the reference to the PHIN Message			
	Mapping Guide from which the content is derived.			
Local Subject ID	The local ID of the subject/entity.	+ DUNG Name-Time 1117 Oc		
Subject Name Type	Name is not requested by the program, but the Patien Name field is required to be populated for the HL7 message to be valid. Have adopted the HL7	t PHV3_NameType_HL7_2x		
	convention for processing a field where the name has been removed for de-identification purposes.			
Current US Resident Foreign Resident	Does the subject currently reside in the USA? Is the subject a Foreign Resident? Refer to CSTE	PHVS_YesNoUnknown_CDC PHVS_YesNoUnknown_CDC		
r or eight resident	position statement 11-SI-04 for more information: http://www.cste.org/ps2011/11-SI-04.pdf	TTV3_resHootkilowii_ebe		
Immediate National Notifiable Condition	Does this case meet the criteria for immediate (extremely urgent or urgent) notification to CDC?	PHVS_YesNoUnknown_CDC		
	Refer to the CSTE list of NNC at the following link: http://www.cste.org/dnn/LinkClick.aspx? fileticket=A5oAgCiPNT0%3d&tabid=36∣=1496			
Local Record ID	Sending system-assigned local ID of the case			
Subject Type	investigation with which the subject is associated. Type of subject for the notification. "Person,"	PHVS_NotificationSectionHeader_CDC		
,/	"Place/Location," or "Non-Person Living Subject" are the appropriate subject types for Notifications to CDC.			
Notification Type	Type of notification. Notification types are "Individual	PHVS NotificationSectionHeader CDC		
	Type of notification. Notification types are "Individual Case," "Environmental," "Summary," and "Laboratory Report".			
Date First Electronically Submitted	Date/time the notification was first sent to CDC. This value does not change after the original notification.			
Date of Report	Date/time this version of the notification was sent. It			
	will be the same value as NOT103 for the original notification. For updates, this is the update/send date/time.			
Notification Result Status	Status of the notification.	PHVS_ResultStatus_NETSS		
Condition Code	Condition or event that constitutes the reason the notification is being sent	PHVS_NotifiableEvent_Disease_Condition_ CDC_NNDSS		
Birth Date Country of Birth	Date of birth in YYYYMMDD format Country of Birth	PHVS_CountryofBirth_CDC		
Subject's Sex Race Category	Subject's current sex Field containing one or more codes that broadly refer	PHVS_Sex_MFU PHVS_RaceCategory_CDC		
Country of Usual Residence	to the subject's race(s). Where does the person usually* live (defined as their	PHVS_CountryofBirth_CDC		
	residence) *For the definition of 'usual residence' refer to CSTE			
	position statement # 11-SI-04 titled "Revised Guidelines for Determining Residency for Disease			
	Reporting" at http://www.cste.org/ps2011/11-SI- 04.pdf .			
Subject Address County	County of residence of the subject	PHVS_County_FIPS_6-4		
Subject Address State Subject Address ZIP Code	State of residence of the subject ZIP Code of residence of the subject	PHVS_State_FIPS_5-2		
Ethnic Group Code	Based on the self-identity of the subject as Hispanic or Latino			
Reporting State Reporting County	State reporting the notification. County reporting the notification.	PHVS_State_FIPS_5-2 PHVS_County_FIPS_6-4		
National Reporting Jurisdiction	National jurisdiction reporting the notification to CDC.	PHVS_NationalReportingJurisdiction_NND		
Jurisdiction Code	Identifier for the physical site from which the notification is being submitted.			
Date of Report/Referral	Date the event or illness was first reported by the reporting source (physician or lab reported to the local/county/state health department).			
Reporting Source Type Code	Type of facility or provider associated with the source of information sent to Public Health.	PHVS_ReportingSourceType_NND		
Reporting Source ZIP Code Earliest Date Reported to County	ZIP Code of the reporting source for this case. Earliest date reported to county public health system			
Earliest Date Reported to State Hospitalized	Earliest date reported to state public health system Was subject hospitalized because of this event?	PHVS_YesNoUnknown_CDC		
Admission Date	Subject in spiralized because of this event: Subject's first admission date to the hospital for the condition covered by the investigation.	FTTV3_TESNOOTIKTOWIT_CDC		
Discharge Date	Subject's first discharge date from the hospital for the condition covered by the investigation.			
Duration of hospital stay in days	Subject's duration of stay at the hospital for the condition covered by the investigation.			
Diagnosis Date	Earliest date of diagnosis (clinical or laboratory) of condition being reported to public health system			
Date of Illness Onset	Date of the beginning of the illness. Reported date of the onset of symptoms of the condition being reported to the public health system			
Illness End Date Illness Duration	Time at which the disease or condition ends. Length of time this subject had this disease or			
Illness Duration Units	condition. Unit of time used to describe the length of the illness	PHVS_AgeUnit_UCUM		
Subject Died	or condition. Did the subject die from this illness or complications of			
-	this illness?	=		

10/27/2021

If the subject died from this illness or complications associated with this illness, indicate the date of death

Deceased Date

PHVS_DiseaseAcquiredJurisdiction_NETSS

PHVS_CaseClassStatus_NND

PHVS YesNoUnknown CDC

Case Investigation Start Date

Imported Country

Imported State

The date the case investigation was initiated. Case Outbreak indicator

Denotes whether the reported case was associated with an identified outbreak. PHVS YesNoUnknown CDC

A state-assigned name for an indentified outbreak Case Outbreak Name Case Disease Imported Code

Indication of where the disease/condition was likely acquired.

If the disease or condition was imported, indicates the PHVS_Country_ISO_3166-1 country in which the disease was likely acquired.

If the disease or condition was imported, indicates the PHVS_State_FIPS_5-2 state in which the disease was likely acquired. If the disease or condition was imported, indicates the PHVS_City_USGS_GNIS city in which the disease was likely acquired.

Imported City

Imported County

If the disease or condition was imported, contains the PHVS_County_FIPS_6-4 county of origin of the disease or condition.

Code for the mechanism by which disease or condition PHVS_CaseTransmissionMode_NND was acquired by the subject of the investigation. Transmission Mode

Case Class Status Code

Status of the case/event as suspect, probable, confirmed, or not a case per CSTE/CDC/ surveillance case definitions.

MMWR Week for which case information is to be counted for MMWR publication. MMWR Week

MMWR Year (YYYY) for which case information is to be counted for MMWR publication. MMWR Year

States use this field to link NEDSS investigations back State Case ID to their own state investigations.

Date the case was first reported to the CDC Date of First Report to CDC

Date First Reported PHD

Earliest date the case was reported to the public health department whether at the local, county, or state public health level.

Indicates whether the subject was pregnant at the time of the event. Pregnancy status

Person Reporting to CDC - Name

Name of the person who is reporting the case to the CDC. This is the person that CDC should contract in a state if there are questions regarding this case notification.

Person Reporting to CDC - Phone

Phone Number of the person who is reporting the case to the CDC. This is the person that CDC should contract in a state if there are questions regarding this

Email Address of Sender

Email address of person who sent the report CDC uses this field to link current case notifications to case notifications submitted by a previous system (NETSS, STD-MIS, etc.) Legacy Case ID

Country of Exposure or Country Where Disease was Acquired

Indicates the country in which the disease was potentially acquired.

PHVS_CountryofBirth_CDC

Note: use exposure or acquired consistently across variables

State or Province of Exposure

Indicates the state in which the disease was potentially PHVS_State_FIPS_5-2 acquired.

Business Rule: If Country of exposure was US, populate with US State. If Country of exposure was Mexico, populate with Mexican State. If country of exposure was Canada, populated with Canadian Province. For all other countries, leave null.

City of Exposure Indicates the city in which the disease was potentially

Business Rule: If country of exposure is US, populate with US city. For all other cities, can be populated but not required. Note: Since value set only includes US cities, would

allow states to populate the CWE 9th component with another city.

County of Exposure Indicates the county in which the disease was potentially acquired.

Business Rule: If country of exposure is US, populate

with US county. Otherwise, leave null.

For cases meeting the binational criteria, select all the $\,$ PHVS_BinationalReportingCriteria_CDC criteria which are met Binational Reporting Criteria

Subject age at time of case investigation

Age at case investigation Age units at case investigation

NORS ID

Subject age units at time of case investigation Case Count Number of cases being reported in the notification
