Revisions to the Collection Instrument

SSA is making the following revisions:

- **Change #1:** We are revising the Person Statement screen within the SSI Claims System and moving it to the Consolidated Claims Experience (CCE) platform.

Justification #1: The current version of the SSA-795 screen within the SSI Claims System only allows the technicians to enter the information in the SSI Claims System screen, print it, and obtain a wet signature. The new screen and platform under the CCE, allows the technicians to enter the information to the screen and record how they obtained the signature: either wet signature (i.e., ink) or oral (i.e., attestation). See the screen package for detail screen description.

- **Change #2:** We updated the Privacy Act Statement on this form.

Justification #2: SSA's Office of the General Counsel is conducting a systematic review of SSA's Privacy Act Statements on agency forms. As a result, SSA is updating the Privacy Act Statement on the form.
