Any or all of the messages might be played, in any combination, based on the values of the variables. That said, care should be taken to use these messages judiciously in order to avoid front-loading the call with off-topic messaging, and to use these emergency messages only for legitimate emergencies (as opposed to less critical informational messaging). We do NOT include the home you live in, vehicles, burial plots, or personal possessions. However, there are income limits we will consider if you decide to file for this help. Changes in the law will make it easier for some people to qualify for extra help. Social Security won't count the help you receive with your household expenses as income, or any life insurance policies, as a resource when determining your eligibility. You may also be able to get help with Medicare costs from your state under a Medicare Savings Program. When we find that a beneficiary needs help managing their Social Security or SSI benefits, we appoint a Representative Payee for them. Appointed payees must be interviewed in person, and complete a form at a Social Security office. There, the appointed payee will need their social security number, proof of identification (like a driver's license), as well as the name and contact information of the beneficiary's doctor. If, on the other hand, a beneficiary wants to obtain a payee, or wants to change their current payee, the potential payee must be interviewed in person, and complete a form at a Social Security office. Again, the potential payee will need their social security number, proof of identification, as well as the name and contact information of the beneficiary's doctor. In addition, although a potential payee may have 'power of attorney,' Social Security does not recognize 'power of attorney' for purposes of managing benefit payments. Finally, if you want to become your OWN payee, you need to show evidence (a doctor's statement, for example) that you're now able to handle your money yourself. |

2.2 AddressOSDM Dialog

This module collects an address from a caller. This module is likely to be incorporated into a larger application. NOTE TO CUSTOMER: This is a packaged application, and both the flow and code can not be altered as it is sold and delivered as a packaged piece of code. We will have some flexibility in terms of prompt wording (within boundaries, as we don't want to change grammars) and there are some configurable parameters that we can change from their defaults. Please keep this in mind as you review the document.

Config Parameters

| Parameter | Value |
|-----------|-------|
| -- | -- |

Developer Notes

This DM needs to confirm pretty much all the time. In this case use default confirmation prompts. Set confidencelevel to .8 or higher. Alternatively, we might specify a parameter that controls confirmation for this DM alone. Suppress successprompts and failureprompt. Please note that as with the behavior of all the other OSDMs the sequence of Retry prompts is as follows: If caller's utterance is low confidence, play noanswerapologies followed by reprompts. If caller said "no" after confirmation, play wronganswerapologies followed by reprompts.

NOTE: this state recognized only VALID zipcodes (i.e. not any numerical string)

2.3 BenefitsVerification Dialog

This application allows callers who are currently receiving Social Security benefits to have a benefits verification or proof of income letter mailed to them. Callers need this letter for various purposes such as applying for a loan or mortgage, assisted housing benefits, and Medicare health insurance coverage.

| initial | Always | ca0240_ini_01 | Sure, here's some more information. You can only change your address if you're currently receiving Social Security retirement, disability, or survivor benefit payments. If you're NOT receiving benefits, the Social Security Administration doesn't keep your address on file (so even an agent can't do it). In this case, to change the address where we send your Social Security statements, you'll need to contact the Internal Revenue Service. The easiest way to do that is just enter your new address on your tax return, but if you need to do it sooner, you can use IRS form 8-8-2-2, which you can get by calling 1-800-829-3676. |

Developer Notes

Code must calculate the three specific months based on current date and SSA business practices. The prompt MonthChoices is then the concatenation of the first and second month in medial inflection, and the third month in final inflection. "One Step Correction" strategy should be available to the Caller (e.g., "No, February") -- This means both the collection grammar and the confirmation grammar are active during the confirmation phase. (This can be done as a parallel grammar.) The grammar that should be accepted includes "as soon as possible" (ASAP) and its synonyms, the three specific months calculated above, and any additional months between the current month and the first of the calculated months. For example, if a call is received toward the end of September, the valid months are October, November and December, but the grammar should include September, October, November, December, and the ASAP synonyms, and September and October should be mapped the same as ASAP. The current month is not prompted, but it should be recognized and handled the same as ASAP.
