

DRAFT - Survey of Employment and Training Programs Integrating Financial Capability

Survey Questionnaire

Thank you for agreeing to participate in the *Integrating Financial Capability and Employment Services* survey. This survey is being conducted for Office of Planning, Research, and Evaluation (OPRE), a division of the Administration for Children and Families (ACF) within the U.S. Department of Health and Human Services and is being administered by MEF Associates and Urban Institute on behalf of OPRE. This survey will help OPRE to better understand how financial capabilities interventions are delivered in the context of employment and training programs serving adults with lower or modest incomes.

The survey will take approximately 20 minutes to complete. We are asking staff and managers of programs that deliver employment and training programs and financial capabilities interventions that are in some way coordinated or integrated to participate in the survey. Survey questions will focus on details about your organization, the employment and training and/or financial capabilities services it offers, the ways the two types of services work together, partnerships and staffing involved in delivering these services, promising practices and challenges in delivering these services, and any relevant outcome measurements and evaluations.

Your participation is voluntary. You do not have to answer any question you do not want to, and you may end the survey at any time. Only the study team will see your survey responses and all responses will be kept private. Your name will not be included in any report or publication associated with this study or its results. The information you share will contribute to the evidence policymakers and practitioners have about financial capability interventions delivered in employment and training program contexts, and how they may be helpful for adults with low incomes.

Please take your time as you answer these questions. A government agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this information collection is XXXX-XXXX and the expiration date is XX/XX/XXXX.

If you have any questions about this effort, please contact the project director:

By proceeding, you give your consent to participate in this survey.
