

DEPARTMENT OF JUSTICE

[OMB Number 1123-0010]

Agency Information Collection Activities: Proposed Collection; Comments Requested; Request for Registration Under the Gambling Devices Act of 1962**ACTION:** 30-Day notice.

SUMMARY: The Department of Justice (DOJ), Criminal Division, will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: The proposed information collection is published to obtain comments from the public and affected agencies. Comments are encouraged and will be accepted for 30 until November 26, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Revision of a currently approved collection.

(2) *Title of the Form/Collection:* Request for Registration Under the Gambling Devices Act of 1962.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: DOJ\CRM\OEO\GDR-1. Sponsoring component: Criminal Division, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit. Other: Not-for-profit institutions, individuals or households, and State, Local or Tribal Government. The form can be used by any entity required to register under the Gambling Devices Act of 1962 (15 U.S.C. 1171-1178).

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 7,800 respondents will complete each form within approximately 5 minutes.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 650 total annual burden hours associated with this collection.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: October 21, 2021.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-14-P**DEPARTMENT OF LABOR****Bureau of Labor Statistics****Information Collection Activities, Comment Request**

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public

and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed extension of the “Consumer Price Index Housing Survey.” A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section of this notice on or before December 27, 2021.

ADDRESSES: Send comments to Nora Kincaid, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE, Washington, DC 20212. Written comments also may be transmitted by email to BLS_PRA_Public@bls.gov.

FOR FURTHER INFORMATION CONTACT: Nora Kincaid, BLS Clearance Officer, telephone 202-691-7628 (this is not a toll free number). (See **ADDRESSES** Section.)

SUPPLEMENTARY INFORMATION:**I. Background**

The Consumer Price Index (CPI) is the timeliest instrument compiled by the U.S. Government that is designed to measure changes in the purchasing power of the urban consumer’s dollar. The CPI is used most widely as a measure of inflation, and is used in the formulation of economic policy. It also is used as a deflator of other economic series, that is, to adjust other series for price changes and to translate these series into inflation-free dollars.

II. Current Action

Office of Management and Budget clearance is being sought for the CPI Housing Survey. The continuation of the collection of housing rents for the CPI is essential since the CPI is the nation’s chief source of information on retail price changes. If the information on rents were not collected, Federal fiscal and monetary policies would be hampered due to the lack of information on price changes in a major sector of the U.S. economy, and estimates of the real value of the Gross Domestic Product

could not be made. The consequences to both the Federal and private sectors would be far reaching and would have serious repercussions on Federal government policy and institutions.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Title of Collection: CPI Housing Survey.

OMB Number: 1220-0163.

Type of Review: Extension.

Affected Public: Individuals or households; business or other for-profit.

Total Respondents: 76,157.

Frequency: Semi-annually.

Total Responses: 120,694.

Average Time per Response: 5.88596 minutes.

Estimated Total Burden Hours: 11,840 hours.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 21st day of October 2021.

Eric Molina,

Acting Chief, Division of Management Systems.

BILLING CODE 4510-24-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petition for Modification of Application of an Existing Mandatory Safety Standard

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice.

SUMMARY: This notice includes the summary of a petition for modification submitted to the Mine Safety and Health Administration (MSHA) by the party listed below.

DATES: All comments on the petition must be received by MSHA's Office of Standards, Regulations, and Variances on or before November 26, 2021.

ADDRESSES: You may submit your comments including the docket number of the petition by any of the following methods:

1. *Email:* zzMSHA-comments@dol.gov. Include the docket number of the petition in the subject line of the message.

2. *Facsimile:* 202-693-9441.

3. *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, Virginia 22202-5452, *Attention:* Jessica D. Senk, Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist's desk in Suite 4E401. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor's COVID-19 policy. Special health precautions may be required.

MSHA will consider only comments postmarked by the U.S. Postal Service or proof of delivery from another delivery service such as UPS or Federal Express on or before the deadline for comments.

FOR FURTHER INFORMATION CONTACT: Jessica D. Senk, Office of Standards, Regulations, and Variances at 202-693-9440 (voice), Senk.Jessica@dol.gov (email), or 202-693-9441 (facsimile). [These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor (Secretary) determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

3. In addition, sections 44.10 and 44.11 of 30 CFR establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M-2021-033-C.

Petitioner: Consol Pennsylvania Coal Company LLC, 685 Patterson Creek Road, Sycamore, PA 15364.

Mine: Harvey Mine, MSHA ID No. 36-10045, located in Greene County, Pennsylvania.

Regulation Affected: 30 CFR 75.312(c) and (d) (Main mine fan examinations and records).

Modification Request: The petitioner requests modification of the existing standard 30 CFR 75.312(c) and (d) to permit an alternative method of compliance as it pertains to a mine fan shutdown to test the automatic fan stoppage signal device and to determine that air flow reversal prevention doors will automatically close when the fan shuts down. The petitioner proposes an alternate method of performing the main fan tests without shutting down the fan(s) and without removing the miners from the mine.

The petitioner states that:

1. Harvey Mine is a large mine with a complex ventilation system consisting of both intake and exhaust shafts. The exhaust shafts have main mine fans connected to them. Each fan is equipped with a pressure recording device and an automatic signal system designed to give an alarm should the fan slow or stop. All exhaust fans are equipped with automatic closing doors to prevent the reversal of air into the mine upon a shutdown of the fan.

2. Because of the complexity of the ventilation system, shutting down any fans creates the potential for effects on the system which may require evaluation and delay. Use of the methods described below will minimize the hazards associated with stopping the fans in a complex ventilation system.
