- Owner Renter Relative of the landlord
 None of the above → Some arrangement exists other than owning or renting.
 Please describe here:

2. Is this house/apartment the *primary residence of at least one of the occupants?**

*A primary residence is defined as an occupant residing in the house/apartment for six or more months of the year.

- Yes No

Why are we collecting this information?

We conduct this survey to help us better identify rented and owned housing across the country as the first step in the Consumer Price Index (CPI) Housing Survey. In a later step, we collect information about the costs of housing. This information plays a critical role in helping us update the CPI. The CPI is the most widely used measure of inflation, and has many uses, including:

- The cost of living adjustments for over 50 million Social Security beneficiaries.
- The cost of lunches for millions of school children.
- Federal income tax brackets, so you don't pay higher taxes because of inflation.
- Payments in collective bargaining agreements.
