

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

SPECIFIC IC/Forms PTA QUESTIONS

1. Purpose of the Information Collection or Form

a. Describe the purpose of the information collection or form.

The U.S. Coast Guard (USCG) is renewing Information Collection Request (ICR) titled, 1625-0020: Security Zones, Regulated Navigation Areas, and Safety Zones.

Title 46 U.S. Code (U.S.C.) 70034 and 70051 authorize the USCG Captain of the Port (COTP) to designate security zones in the U.S. for as long as the COTP deems necessary to prevent damage or injury. 46 U.S.C. 70001 authorizes the USCG to prescribe rules to control vessel traffic in areas he or she deems hazardous because of reduced visibility, adverse weather, or vessel congestion. 46 U.S.C. 70011 authorizes the USCG to establish rules to allow the designation of safety zones where access is limited to authorized persons, vehicles, or vessels to protect the public from hazardous situations. Coast Guard regulations for these areas are in 33 CFR part 165.

The collection is used by the Coast Guard to evaluate a Federal, State, local government agency, or owner/operator of a vessel or facility request to establish a Security Zone, Regulated Navigation Area or Safety Zone. If appropriate, a zone is established and advertised via Federal Register publication.

There is no form associated with this collection. The information may be submitted in writing or electronically via e-mail to the USCG District Commander (DC) or Captain of the Port (COTP) at the local Sector Office. Contact info for a DC or COTP is found at—<https://www.uscg.mil/Units/Organization/>. The records that the Coast Guard receive are maintained in Marine Information for Safety and Law Enforcement (MISLE) database.

The record contains basic business contact information which may include the name and address of an individual.

b. List the DHS (or Component) authorities to collect, store, and use this information.

The authority for this collection is 46 U.S. Code 70001, 70011, 70034 and 70051.

Records are maintained per NARA retention schedule number: N1-026-05-015.

DHS Privacy Office Comments:

Please describe rationale for privacy compliance determination above.

USCG is submitting this renewal PTA to discuss Security Zones, Regulated Navigation Areas, and Safety Zones. The purpose is to authorize the USCG Captain of the Port (COTP) to designate security zones in the U.S. for as long as the COTP deems necessary to prevent damage or injury, authorizes the USCG to prescribe rules to control vessel traffic in areas he or she deems hazardous because of reduced visibility, adverse weather; or vessel congestion, and authorizes the USCG to establish rules to allow the designation of safety zones where access is limited to authorized persons, vehicles, or vessels to protect the public from hazardous situations. The collection is used by the Coast Guard to evaluate a Federal, State, local government agency, or owner/operator of a vessel or facility request to establish a Security Zone, Regulated Navigation Area or Safety Zone. If appropriate, a zone is established and advertised via Federal Register publication. There is no form associated with this collection. The information may be submitted in writing or electronically via e-mail to the USCG District Commander (DC) or Captain of the Port (COTP) at the local Sector Office. Contact info for a DC or COTP is found at—<https://www.uscg.mil/Units/Organization/>. The records that the Coast Guard receive are maintained in Marine Information for Safety and Law Enforcement (MISLE) database.

The record contains basic business contact information which may include the name and address of an individual.

The DHS Privacy Office (PRIV) agrees that this form is privacy-sensitive, requiring PIA coverage because PII is collected from members of the public.

PRIV agrees with USCG Privacy that PIA coverage is provided by DHS/USCG/PIA-008 MISLE, which outlines the risks of capturing information required to support the Coast Guard's marine safety, security, environmental protection and law enforcement programs.

PRIV agrees with USCG Privacy that SORN coverage is not required because information is not retrieved by a personal identifier.
