

**Public Burden Statement**

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1845-0150. Public reporting burden for this collection of information is estimated to average 21 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is required to obtain or retain benefit (Section 487A(b) of the Higher Education Act of 1965, as amended). If you have any comments concerning the accuracy of the time estimate, suggestions for improving this individual collection, or if you have comments or concerns regarding the status of your individual form, application or survey, please contact the Experimental Sites Initiative (experimentalsites@ed.gov) directly.

9	Please describe the credentials of the instructors of the postsecondary courses offered to students participating in this experiment
10	Where does the postsecondary instruction of courses participating in this experiment take place?
11	Has your accreditor been involved in approving the delivery of the program(s) to high school students? If yes, please describe the process.
12	Does your postsecondary institution have any articulation agreements with other postsecondary institutions relevant to the course offerings made possible by this experiment? If yes, please describe.
13	Were there any admission standards for students participating in your dual enrollment program? If yes, please describe.
14	Are experimental Pell Grant recipients who do not meet academic readiness standards provided access to remediation opportunities? If yes, please describe.
15	Are high school students given guidance when selecting postsecondary courses? If yes, please identify the parties who provide guidance and describe the guidance provided.
16	What grade level of secondary students participated in the experiment? (e.g., seniors only; seniors and juniors; all high school grades)
17	Are any limits placed on courses or programs of study that dual enrollment students can enroll in? if yes, how, and by whom, are those limits determined and administered?
18	Please identify legal or other restrictions or requirements are in place regarding dual enrollment?
19	Please describe any changes to your school's delivery of Title IV aid required by your participation in this experiment.
20	Describe if and how high school student receipt of experimental Pell Grant funding is aligned with any STEM and/or workforce alignment programs.
21	What support services are provided by your institution or the high school to the secondary students who complete a FAFSA in order to participate in the experiment?

1	What is the student's first name?
2	What is the student's last name?
3	What is the student's date of birth?
4	What is the student's Social Security number?
5	What experiment is the institution reporting on with regard to the student?
6	List any other experiments in which the student is participating.
7	What is the reporting award year?
8	What was the student's cumulative postsecondary grade point average (or other alternative measure) at the end of the most recently completed award year?
9	What was the student's enrollment status at the beginning of the first award year in which the student was part of the experiment?
10	What was the student's enrollment status at the end of the most recently completed award year?
11	To the best of your knowledge, did the applicant enroll in a program of study at your institution not involved with the experiment or enroll at another postsecondary institution during the most recently completed award year? (Select one: "Yes," "No," "Unknown")
12	What was the student's grade level at the beginning of the most recently completed award year?
13	What was the student's grade level at the end of the most recently completed award year?
14	How many postsecondary credits/hours were attempted by the student in the most recently completed award year?
15	How many postsecondary credits/hours were earned by the student in the most recently completed award year?
16	How much was the student assessed for tuition and other mandatory fees for the most recently completed award year?
17	What was the amount of the student's indirect costs that were included in the student's COA for the most recently completed award year (including books and supplies)?
18	What was the total non-Title IV grant or scholarship aid received by the student for the most recently completed award year?
19	What was the total non-Title IV loan aid received by the student for the most recently completed award year?
20	Did the student complete the academic program associated with the student's participation in the experiment?
21	Was the FAFSA applicant determined not to be eligible for a Pell Grant, and if so for what reason? (Select all that apply. Potential answers: "Default," "Selective Service," "Citizenship," "High school completion," "Drug conviction," "EFC," "Did not complete FAFSA," "Did not enroll")
22	What was the student's high school graduation status at the end of the most recently completed award year?
23	What is the name, address, and National Center for Education Statistics (NCES) secondary school ID and Local Education Agency (LEA) code of the student's high school?
