

Instructions for Allowance Deduction Form (Optional)

The regulations for the Acid Rain Program, Cross-State Air Pollution Rule (CSAPR) trading programs, and Texas SO₂ Trading Program allow for the identification of the specific allowances to be deducted for compliance. If you choose to identify specific allowances, your selections must be submitted by:

- **Acid Rain Program:** 60 days after the end of the year following a given control period (March 1 most years; February 29 in leap years)
- **CSAPR and TXSO₂ Programs:** June 1 the year following a given control period

You are encouraged to use the CAMD Business System (CBS) to identify the allowances to be deducted online. To register for CBS, go to <https://camd.epa.gov/CBS/login/auth>. If you need assistance, please send an email to AnnualReconciliation@epa.gov.

If you need more space, photocopy page one. When you have completed the form, indicate the page order and total number of pages (*e.g.*, 1 of 4, 2 of 4, etc.) in the spaces provided in the upper right-hand corner of each page.

Either the designated representative (DR) or the alternate DR may sign this form.

- Step 1** Select the allowance trading program. Only check one box. If you want to identify the allowances to be deducted under more than one program, submit a separate form for each program.
- Step 2** Enter the compliance year, the compliance account number of the facility (i.e., plant) from which allowances are to be deducted, and the facility name.
- Step 3** List by serial number the allowances to be deducted. You may specify single allowances or a series of allowances. In the total column, enter the total number of allowances to be deducted.

Verify the accuracy of your entries by computing one of the following simple equations:

$$\text{Start Number} = \text{End Number} - \text{Total} + 1$$

or

$$\text{End Number} = \text{Start Number} + \text{Total} - 1$$

NOTE: If the serial number range does not correspond with the figure for the total number of allowances, then EPA will rely on the serial number range and not the total number.

You may copy the form to list additional allowances to be deducted. When you have completed the form, for each compliance account number indicate the page order and total number of pages (*e.g.*, 1 of 4, 2 of 4, etc.) in the boxes in the upper right-hand corner of each page.

The allowance year of the allowances to be deducted must be no later than the compliance year listed in Step 1.

If you do not identify enough allowances by serial number, EPA will deduct any additional allowances necessary on a first-in, first-out (FIFO) basis starting with those allowances that were originally allocated to the source in the order of recordation into the compliance account, followed by any allowances transferred into the compliance account in the order of recordation.

If you identify more than enough allowances, EPA will deduct the allowances in the order listed on the form. EPA will not deduct more allowances than necessary for compliance.

Step 4 Read the certification, sign, and date.
