## B. Who Must File?

The following depository institutions are subject to reporting requirements of the FR 2956 on every government securities trading day:

- (1) Every national bank, state member bank, state non-member bank, savings association, or U.S. branch and agency of a foreign bank filing a Notice of Government Securities Broker or Government Securities Dealer Activities (Form G-FIN; OMB No. 7100-0224) with an average of dollar volumes of transactions in U.S. Treasury debt above \$100 million per day over the period from October 1 of the previous year through September 30 of the current year. Entities meeting this threshold would report Part 1 of the FR 2956.
- (2) Every national bank, state member bank, state non-member bank, savings association, or U.S. branch and agency of a foreign bank filing a Notice of Government Securities Broker or Government Securities Dealer Activities (Form G-FIN; OMB No. 7100-0224) with an average of dollar volumes of transactions in debt and MBS issued by agencies above \$50 million per day over the period from October 1 of the previous year through September 30 of the current year. pursuant to FINRA rules are exempt from this reporting requirement.

## C. When to File

Reporting transactions would be event-generated and estimated to occur daily. Depository institutions will be required to assess annually whether they meet the reporting criteria. If a depository institution meets the event-generated threshold to report based on the average of its daily transactions from October 1 of the previous year through September 30, the depository institution will be required to begin to report the implemented FR 2956 effective January 1 of the following year and continue reporting such transactions throughout that calendar year.<sup>1</sup> If a depository institution that reports on the implemented FR 2956 falls below the threshold based on the average of its daily transactions from October 1 of the previous year through September 30, the depository institution will be required to continue to report through December 31 of that year but would not be required to report for the next calendar year.

### Part 1: U.S. Treasury Securities Transaction Reporting

The following reporting requirements apply to all marketable U.S. Treasury Securities, including Treasury bills, notes, floating rate notes, bonds, inflation-protected securities (“TIPS”), and Separate Trading of Registered Interest and Principal Securities (“STRIPS”). Auction awards themselves should not be reported.
