

Justification for Nonsubstantive Change Request 4
ICR 0579-0036

November 12, 2021

APHIS Form 7041 was edited to simplify its completion or identifying submitting veterinarians. The subcaptions were removed from the form's title and the importer's email address field, and a field for country was added to the "Address of Veterinarian" to ensure it is provided.

The burden estimate remains unchanged.
