OMB No. 0596-0246, Expires XXXX

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid Office of Management and Budget (OMB) control number. The valid control number for this information collection is OMB 0596-0246.

Introduction and Instructions

Thank you for agreeing to participate in this study. Your responses will provide important information for the design and implementation of programs and policies that support farm and forest hurricane and other hazard resilience in Puerto Rico and U.S. Virgin Islands.

The individual who makes most of the decisions about the land and/or operations that we are discussing today should answer this questionnaire. A member of the research team will read the questions and response options to you and note your responses. The estimated time for completion of the questionnaire is about 35 minutes. Your participation is completely voluntary and you may stop, postpone, or withdraw your responses at any time for any reason.

The information that you share with us today is confidential. With your permission, we will record our conversation to help guarantee the accuracy of the information. This recording is strictly for research purposes and will not be used or accessible beyond the members of the research team.

Your answers and opinions will not be associated with or attributable to your name or other personally identifiable information in reports, publications, or any other information generated from this work. Your responses to this questionnaire will be combined with those of other farmers and forest owners across Puerto Rico and U.S. Virgin Islands to better understand farm and forest characteristics, practices, preferences, and needs, particularly as they relate to hurricanes and tropical storms.

I will read you the questions and provide possible responses. You can tell me what response you wish to select and I will record it. Let's begin.
