**Justification for Change Request**

This is a nonmaterial/non-substantive change request for OMB No. 0920-0900, expiration date 08/31/2024. All requested changes represent minor modifications to already-approved instruments including revised formatting, rewording, new answer options, and the addition/subtraction of a limited number of questions.

This non-substantive change request is for the option to fax the form to be removed from Attachments G, H, I, and J. Email will be the only option for submission and the forms will be fillable pdfs. For Attachment K, the word “Immunity” in section five will be changed to “Vaccination,” which is the accurate term. The term “Immunity” is inaccurate to use for that section.

None of these changes will change the burden hours for respondents.
