Complete each yellow-highlighted box on the form to enter the Awa form, and the program's service delivery projections.

Programs should project the total number of women served, served women who will receive patient navigation-only services. Programs race/ethnicity *and/or* rurla/urban/metro categories. Please provide t served and for breast, cervical, and navigated-only. Programs may group, additional races, LGBTQ+) and provide related projections. rural/urban categories are provided on the Definitions tab. The race worksheet are the minimum required categories from Office of Man CDC's minimum data elements (MDEs).

Please note that the race/ethnicity categories will be totaled automa projection. Similarly, the rural/urban/metro categories will be totaled projection. For instance, a program projecting to serve a total of 70 that total 700. If the program also chooses to provide projections by should also equal 700. Any projections you add for propulation(s) c LGBTQ+) are considered a subset of the total projection and shoul 700).

Do not leave any yellow box empty. Enter 0 if the projection is zero

These projections should reflect the clinical and patient navigationfunds. Initially, these projections should be based on the amount of Projections should be ambitious but realistic. If your CDC funding a funding amount, you may need to revise your service delivery proje submitted to CDC through nbccedp.cdc.gov.

Projections should be consistent with your work plan and budget. F consideration the size of the eligible population, and consider the n

Program Year <mark>2022–2023 (6/30/2022 - 6/29/2023)</mark> Service Delivery Projections		
Award Recipient: Name of Person Completing Form:		
NBCCEDP-funded Clinical Services	Total Estimated	Projection
1-Proposed Number of Women who will receive at least one NBCCEDP-funded clinical service in Program Year 2022-2023:		
Project the number of women who will receive at least one NBCCEDP-funded clinical service: <u>mammogram, clinical</u> breast exam, Pap test, HPV test, or diagnostic service. These women may also receive NBCCEDP-funded patient navigation support.		
Count each woman once, regardless of how many NBCCEDP-funded clinical servcies she receives. For example, a woman receiving both a breast and a cervical cancer NBCCEDP-funded clinical service would only be counted once.		
Because some women receive multiple NBCCEDP-funded breast and cervical cancer clinical services, this projection may not equal the separate projections of the number of women served for breast cancer services and cervical cancer services when they are added together.		
Population of Focus - Race and Ethnicity	Race & Ethnicity	Estimated Projection
