Instruction

Complete each yellow-highlighted box on the form to enter the Award form, and the program's service delivery projections.

Programs should project the total number of women served, served women who will receive patient navigation-only services. Programs race/ethnicity *and/or* rural/urban/metro categories. Please provide total served and for breast, cervical, and navigated-only. Programs may group, additional races, LGBTQ+) and provide related projections. rural/urban categories are provided on the Definitions tab. The race worksheet are the minimum required categories from Office of Management and Budget's minimum data elements (MDEs).

Please note that the race/ethnicity categories will be totaled automatically in the total projection. Similarly, the rural/urban/metro categories will be totaled in the total projection. For instance, a program projecting to serve a total of 700 women that total 700. If the program also chooses to provide projections by race/ethnicity (including LGBTQ+) should also equal 700. Any projections you add for population(s) (including LGBTQ+) are considered a subset of the total projection and should not exceed the total (700).

Do not leave any yellow box empty. Enter 0 if the projection is zero.

These projections should reflect the clinical and patient navigation-funds. Initially, these projections should be based on the amount of funding available. Projections should be ambitious but realistic. If your CDC funding is less than the funding amount, you may need to revise your service delivery projections submitted to CDC through nbccedp.cdc.gov.

Projections should be consistent with your work plan and budget. For consideration the size of the eligible population, and consider the number of

Program Year 2022–2023 (6/30/2022 - 6/29/2023)
Service Delivery Projections

Award Recipient:
Name of Person Completing Form:

NBCCEDP-funded Clinical Services	Total Estimated Projection
<p>1-Proposed Number of Women who will receive at least one NBCCEDP-funded clinical service in Program Year 2022-2023:</p> <p><i>Project the number of women who will receive at least one NBCCEDP-funded clinical service: <u>mammogram, clinical breast exam, Pap test, HPV test, or diagnostic service</u>. These women may also receive NBCCEDP-funded patient navigation support.</i></p> <p>Count each woman once, regardless of how many NBCCEDP-funded clinical services she receives. For example, a woman receiving both a breast and a cervical cancer NBCCEDP-funded clinical service would only be counted once.</p> <p>Because some women receive multiple NBCCEDP-funded breast and cervical cancer clinical services, this projection may not equal the separate projections of the number of women served for breast cancer services and cervical cancer services when they are added together.</p>	

Population of Focus - Race and Ethnicity	Race & Ethnicity	Estimated Projection
<p>Please enter the proposed Number of Women who will receive at least one NBCCEDP-funded clinical service in Program Year 2022-2023 by race and ethnicity. Projections by race and ethnicity should add up to the total projected Number of Women served above.</p>	Hispanic, All Races	
	Black or African American	
	Asian	
	Native Hawaiian or Other Pacific Islander	
	American Indian or Alaskan Native	
	White/Middle Eastern/North African	
Total		0

Population of Focus - Rural and Urban	Rural & Urban	Estimated Projection
<p>Please enter the proposed Number of Women who will receive at least one NBCCEDP-funded clinical service in Program Year 2022-2023 by <u>rurality</u>. Projections by <u>rurality</u> should add up to the total projected Number of Women served above.</p>	Rural	
	Urban	
	Metro	
Total		0

Additional Populations of Focus - Optional		Estimated Projection
<p>Please enter the proposed Number of Women who will receive at least one NBCCEDP-funded clinical service in Program Year 2022-2023 by any <u>additional population of focus</u>.</p> <p>You may also report projections for up to three populations of focus (if those populations of focus are different from the categories listed above). Providing these additional projections is OPTIONAL. Enter the population of focus in b22-24 and delete "[Enter another population of focus]". Projections for these additional populations of focus will NOT be summed; they are considered a subset of the total projection and should not necessarily sum to that number.</p>	[Enter another population of focus]
