INTRODUCTION

Mathematica is conducting the American Indian and Alaska Native Head Start Family and Child Experiences Survey (AIAN FACES) under contract with the Administration for Children and Families (ACF) of the U.S. Department of Health and Human Services (HHS).

We need for you to complete this brief Teacher Survey. The Teacher Survey asks you about your classroom and your background, as well as your thoughts about teaching and your Head Start program.

Thank you for taking the time to complete this survey. Questions are not always numbered sequentially, so please answer questions in the order they appear, regardless of the question number. Additionally, you may be told to skip some questions because they do not apply to you. There are no right or wrong answers to the questions. The Teacher Survey will take about 35 minutes to complete.

A few things you should know about the survey:

- Your participation in the study is voluntary and you may refuse to answer any questions you are not comfortable answering.
- Your individual answers will not be shared with parents, other staff, or your supervisors in your center. Please be assured that all information you provide will be kept private to the extent permitted by law. The information you provide to the study will be protected and will only be seen by members of the study team. Information provided as part of an open-ended question may be directly quoted in order to illustrate a point, but any specific names or places (or any other information that could identify an individual, program, or community) will be omitted from study reports.
- In the future, survey responses from the study (with nothing identifying individuals, programs, or communities) may be securely shared with qualified individuals for additional learning purposes to better understand the strengths and needs of children and families in Head Start and the programs that serve them.
