public comment on federal regubject: spending all tax dollars on hunters - wrong wrong J wrong - disgusting

1. not at all necessarythis application is sneaky. usgs has no reason to be in the hunting business and this appears to be a sneaky application to make a geo agency into a hunting agency. this guy is way off the beam.
2. estimate is fatally screwed up and has no application to reality wher hunting is declining. 98
- 5 of the us public does not hunt.
3. this is a private hobby it has no business being in a govt agency and th inspector general should be calle din here. somethign snarky is going on tha should not be in this agency. fws is about hunting not usgw.
4. reduce burderon taxpayers. taxpayer do nto want to pay for this fluky proposal.this commetn is for the public record. please receipt. jean publiee jeanpublic1@gmail.com
