

Justification Statement for Non-Substantive Change Request - 1084-0010

Currently, Department of the Interior Claim for Relocation Assistance forms, DI-381 and DI-382, are two full sets of forms, 9 and 8 pages respectively, that includes the base document and Schedules A through D. The individual filling out the forms completes the base form on pages 1 and 2, and then completes Schedule A or B or C or D...or a combination of Schedules, such as A & B, or A & C, etc., depending on their circumstance.

To enhance customer service and ease of form use, I request that the base form and each of the Schedules are made into separate documents. There are no changes to the information collection on the base form and the individual Schedules. The page numbers on each document have been updated.
