Comments:	
58. Employees participate in the evaluation of safety and health performance.	
Comments:	

### **Paperwork Reduction Act Notice**

OMB Number: 1218-0110

Expiration Date: [INSERT DATE WHEN AVAILABLE]

Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. OSHA requires that all State On-site Consultants (Consultants) use the Revised Form 33 if they collect information in the course of their visit which would allow them to fill out a portion of the Form. When the Consultation Project Manager recommends an applicant for the OSHA Safety and Health Achievement Recognition Program (SHARP), which exempts the employer from an OSHA Enforcement inspection as long as the applicant remains a SHARP site, managers must complete all Revised Form 33 information. In accordance with 29 CFR 1908.6(h)(1) and (2), Consultants must preserve their confidentiality of information obtained as the result of a consultative visit which contains or must reveal a trade secret of the employer. It is estimated that Consultants average 60 minutes to complete 12-18 entries on the form (for a general consultation visit) and Consultants average 5 hours to complete all 58 entries on the form (for a comprehensive consultation visit or SHARP evaluation), including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing the form. The Form serves as a comprehensive evaluation tool. The information obtained from the form is used to evaluate an employer's safety and health management system. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Office of Small Business Assistance, Occupational Safety and Health Administration, Room N-3660, 200 Constitution Avenue, NW, Washington, DC 20210.
