The Coronavirus Capital Projects Fund (Capital Projects Fund) will address many challenges laid bare by the pandemic, especially in rural America, Tribal communities, and low- and moderate-income communities, helping to ensure that all communities have access to the high-quality modern infrastructure, including broadband, needed to access critical services.

The American Rescue Plan provides \$10 billion for payments to eligible governments to carry out critical capital projects that directly enable work, education, and health monitoring, including remote options, in response to the public health emergency.

Eligible states, territories, and freely associated states may now submit applications for their Capital Projects Fund allocation using the Treasury Submission Portal.
