

**SUPPORTING STATEMENT**  
**Internal Revenue Service**  
**Tax Treatment of Salvage and Reinsurance**  
**OMB # 1545-1227**

**1. CIRCUMSTANCES NECESSITATING COLLECTION OF INFORMATION**

Section 832(b)(3) of the Internal Revenue Code defines the “underwriting income” of a nonlife insurance company as premiums earned less losses incurred, and expenses incurred. Section 832(b)(5) as amended by section 11305 of the Revenue Reconciliation Act of 1990, requires insurance companies to take estimated salvage recoverable into account in the computation of losses incurred. Section 1.832-4(d) of the Income Tax Regulations allows a nonlife insurance company that reports on its annual statement undiscounted unpaid losses reduced by an amount of estimated salvage recoverable in certain circumstances to increase for federal income tax purposes those undiscounted unpaid losses by the estimated salvage recoverable. The final regulations require a yearly disclosure to state regulatory authorities of the estimated salvage recoverable that is subject to this gross-up rule in the regulations.

Treasury Decision (TD) 8390 provided final regulations relating to the treatment of salvage and reinsurance in computing the deduction for losses incurred of insurance companies other than life insurance companies. Changes to the applicable law were made by the Revenue Reconciliation Act of 1990. The regulations are necessary to provide these insurance companies with guidance needed to comply with these changes.

**2. USE OF DATA**

This disclosure will be used by the Internal Revenue Service to assure that the estimated salvage recoverable is reflected yearly in losses reported on the annual statement.

**3. USE OF IMPROVED INFORMATION TECHNOLOGY TO REDUCE BURDEN**

The collection of information does not involve the use of automated electronic or other technological collection techniques.

**4. EFFORTS TO IDENTIFY DUPLICATION**

The information obtained through this collection is unique and is not already available for use or adaptation from another source.

**5. METHODS TO MINIMIZE BURDEN ON SMALL BUSINESSES OR OTHER SMALL ENTITIES**

There are no small entities affected by this collection.

**6. CONSEQUENCES OF LESS FREQUENT COLLECTION ON FEDERAL PROGRAMS OR POLICY ACTIVITIES**

A less frequent collection will not enable the IRS to meet its mission by verifying the foreign tax

credits are being computed properly, which would hinder the IRS from meeting its mission.

7. **SPECIAL CIRCUMSTANCES REQUIRING DATA COLLECTION TO BE INCONSISTENT WITH GUIDELINES IN 5 CFR 1320.5(d)(2)**

There are no special circumstances requiring data collection to be inconsistent with Guidelines in 5 CFR 1320.5(d)(2).

8. **CONSULTATION WITH INDIVIDUALS OUTSIDE OF THE AGENCY ON AVAILABILITY OF DATA, FREQUENCY OF COLLECTION, CLARITY OF INSTRUCTIONS AND FORMS, AND DATA ELEMENTS**

In response to the Federal Register notice dated November 29, 2021 (86 FR 67796), we received no comments during the comment period for these revenue procedures.

9. **EXPLANATION OF DECISION TO PROVIDE ANY PAYMENT OR GIFT TO RESPONDENTS**

No payment or gift has been provided to any respondents.

10. **ASSURANCE OF CONFIDENTIALITY OF RESPONSES**

Generally, tax returns and tax return information are confidential as required by 26 USC 6103.

11. **JUSTIFICATION OF SENSITIVE QUESTIONS**

A privacy impact assessment (PIA) has been conducted for information collected under this request as part of the “Business Master File (BMF)” system and a Privacy Act System of Records notice (SORN) has been issued for this system under IRS 24.046-Customer Account Data Engine Business Master File. The Internal Revenue Service PIAs can be found at <https://www.irs.gov/uac/Privacy-Impact-Assessments-PIA>.

Title 26 USC 6109 requires inclusion of identifying numbers in returns, statements, or other documents for securing proper identification of persons required to make such returns, statements, or documents and is the authority for social security numbers (SSNs) in IRS systems.

12. **ESTIMATED BURDEN OF INFORMATION COLLECTION**

1) Method of reporting gross premiums written — In general, an insurance company reports gross premiums written for the earlier of the taxable year that includes the effective date of the insurance contract or the year in which the company receives all or a portion of the gross premium for the insurance contract. The effective date of the insurance contract is the date on which the insurance coverage provided by the contract commences. The burden associated with reporting gross premiums is accounted for on the annual tax return (i.e., Form 1120-PC – OMB # 1545-0123).

2) In computing the amount of unabsorbed premium deposits which a mutual fire or flood insurance company described in section 831(a)(3)(B) would be obligated to return to its policyholders at the close of its taxable year, the company must use its own schedule of unabsorbed premium deposit returns then in effect. A copy of the applicable schedule must

be filed with the company's income tax return for each taxable year for which a computation based upon such schedule is made. In addition, a taxpayer making such a computation must provide the following information for each taxable year for which the computation is made:

“(i) The amount of gross premiums received during the taxable year, and the amount of premiums paid for reinsurance during the taxable year, on the policies described in section 831(a)(3)(B) and on other policies;

(ii) The amount of insurance written during the taxable year under the policies described in section 831(a)(3)(B) and under other policies, and the amount of such insurance written which was reinsured during the taxable year. The information required under this subdivision shall only be submitted upon the specific request of the district director for a statement setting forth such information, and, if required, such statement shall be filed in the manner provided by this subparagraph or in such other manner as is satisfactory to the district director;

(iii) The amount of premiums earned during the taxable year on the policies described in section 831(a)(3)(B) and on other policies and the computations by which such amounts were determined, including sufficient information to support the taxpayer's determination of the amount of unearned premiums on premium deposit plan and other policies at the beginning and end of the taxable year, and the amount of unabsorbed premium deposits at the beginning and end of the taxable year on policies described in section 831(a)(3)(B).”

The information required by this subparagraph shall be set forth in a statement attached to the taxpayer's income tax return for the taxable year for which such information is being provided. Such statement shall include the name and address of the taxpayer, and shall be filed not later than the date prescribed by law (including extensions thereof) for filing the income tax return for the taxable year. The burden associated with computing the amount of unabsorbed premium deposits is accounted for on the annual tax return (i.e., Form 1120-PC – OMB # 1545-0123).

3) Section 1.832-4(d) of this regulation allows nonlife insurance companies to increase unpaid losses on a yearly basis by the amount of estimated salvage recoverable if the company complies with the yearly disclosure requirement. This disclosure is to be made yearly to the state insurance regulatory authority. We estimate that approximately 2,500 such disclosures will be made and that it will take approximately 2 hours to complete a disclosure. The total burden for this requirement is 5,000 hours yearly.

IRC	Description	# Respondents	# Responses Per Respondent	# Annual Responses	Hours Per Response	Total Burden
832	yearly disclosure requirement	2,500	1	2,500	2	5,000
<b>TOTAL</b>		2,500		2,500		5,000

The following regulations impose no additional burden. Please continue to assign OMB number

1545-2246 to these regulations. **1.1471-1**

**13. ESTIMATED TOTAL ANNUAL COST BURDEN TO RESPONDENTS**

To ensure more accuracy and consistency across its information collections, IRS is currently in the process of revising the methodology it uses to estimate burden and costs. Once this methodology is complete, IRS will update this information collection to reflect a more precise estimate of burden and costs.

**14. ESTIMATED ANNUALIZED COST TO THE FEDERAL GOVERNMENT**

To ensure more accuracy and consistency across its information collections, IRS is currently in the process of revising the methodology it uses to estimate burden and costs. Once this methodology is complete, IRS will update this information collection to reflect a more precise estimate of burden and costs.

**15. REASONS FOR CHANGE IN BURDEN**

There are no changes to the regulation that would affect burden at this time.

**16. PLANS FOR TABULATION, STATISTICAL ANALYSIS AND PUBLICATION**

There are no plans for tabulation, statistical analysis, and publication.

**17. REASONS WHY DISPLAYING THE OMB EXPIRATION DATE IS INAPPROPRIATE**

The agency believes that displaying the OMB expiration date is inappropriate because it would cause confusion by leading taxpayers to believe that the form sunsets as of the expiration date. Taxpayers may not be aware that the IRS intends to request renewal of the OMB approval and obtain a new expiration date before the old one expires.

**18. EXCEPTIONS TO THE CERTIFICATION STATEMENT**

There are no exceptions to the certification statement for this collection.

**Note:** The following paragraph applies to all of the collections of information in this submission:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.
