Application Guide

Welcome to the TSA Alien Flight Student Program (AFSP) online portal.

AFSP's mission is to ensure that individuals participating in flight training do not pose a threat to aviation or national security. Under U.S. law, U.S. flight training providers are prohibited from training any flight training candidates or students unless they have submitted certain information to TSA, and TSA has determined that the individual does not pose a threat to aviation or national security.

Flight training candidates use this online portal to apply for a security threat assessment. A determination of eligibility from the security threat assessment allows a candidate to participate in flight training with an FAA-regulated flight training provider. Candidates must complete the AFSP application before they may begin flight training.

You are creating a draft training event request. TSA has defined a flight training event as instruction received from a flight school in an aircraft or aircraft simulator that a candidate could use toward a new airman certificate, i.e., for an initial rating, instrument rating, multi-engine rating, type rating, or recurrent training, whether on fixed-wing or rotary aircraft.

Each training event carries a fee of \$130. You will not be able to pay the fee until a flight training provider accepts your draft training event request. You cannot combine training event requests.

Category 1 **Type-rated Regular Processing**, a specific certification a pilot obtains to operate a certain type of aircraft, as this training is required beyond the initial, multi-engine and instrument certification (Category 1: For aircraft with a minimum takeoff weight of more than 12,500 pounds)

Category 2 **Type-rated Expedited Processing**, a specific certification a pilot obtains to operate a certain type of aircraft, as this training is required beyond the initial, multi-engine and instrument certification (Category 2: For aircraft with a minimum takeoff weight of more than 12,500 pounds)

For expedited processing, you must select at least one of the below:

- I hold an airman certification with a type rating from a foreign entity that is recognized by an agency of the United States.
(You will be required to provide an image of the airman certificate and type ratings that you hold.)
- I am employed by a U.S. domestic aircraft operator that has a TSA-approved security program (under [49 CFR part 1544](#)).
(You will be required to provide proof of employment.)
- I am employed by a foreign aircraft operator that has a TSA-approved security program (under [49 CFR part 1546](#)).
(You will be required to provide proof of employment.)
- I am an individual who has unescorted access to a secured area of an airport that has a TSA-approved security program (under [49 CFR part 1542](#)).
(You will be required to provide proof of employment.)

Category 3 Candidates for training on aircraft with MTOW 12,500 lbs and under.

- Initial Pilot Certification**, whether private, recreational, or a sport pilot certificate (Category 3: for aircraft with a minimum takeoff weight of 12,500 pounds or less)
Note: You do not need to create a training event request to learn how to operate ultralight aircraft, gliders, sail planes, and lighter-than-air aircraft.
- Instrument Rating**, training that enhances a pilot's abilities to pilot an aircraft in bad weather or at night and enables a pilot to better understand the instruments and physiological experiences of flying without reference to visual cues outside the aircraft (Category 3: for aircraft with a minimum takeoff weight of 12,500 pounds or less)
- Multi-engine**, training that provides a pilot with the skill to operate more complex, faster aircraft (Category 3: for aircraft with a minimum takeoff weight of 12,500 pounds or less)
