Subject: Crime Prevention for Truckers Survey Relaunch

ACTION REQUIRED

I request that you approve an emergency clearance for a revision to Approved Collection 2126-0071 "Crime Prevention for Truckers" by December 8, 2021.

SUMMARY

We are requesting emergency clearance from OMB to revise the approved collection referenced above. The main change is to remove the \$25 payment for those who complete the survey.

BACKGROUND

Originally, the survey was planned to be an in-person data collection, but the project team switched to an online data collection because of the pandemic. Within hours of posting the survey online, it reached its maximum number of responses. This occurred before FMCSA was able to reach out to all desired women's trucking associations to encourage participation by their members, thus undermining the purpose of the survey. No rewards were paid by the agency.

RECOMMENDATIONS

I recommend that you approve the publication of this notice.
