(Sec. 110) This section requires this division be implemented so that only the most limited funding action permitted by this division is taken in order to provide for continuation of projects and activities.

(Sec. 111) This section specifies that funding for appropriated entitlements and other mandatory payments with funding provided in an FY2020 appropriations bill shall be continued at the rate to maintain program levels under current law. (Sec. 4102) DHS may collect a fee to provide premium processing of an application for any immigration benefit that DHS considers appropriate, subject to certain requirements. Currently, DHS only has statutory authority to provide premium processing for employment-based petitions and applications.

Under current law, DHS must use such premium fees to provide premium processing services and make infrastructure improvements. Under this title, such fees shall be used for these purposes and other activities that offset the cost of providing adjudication and naturalization services.

DHS may suspend premium processing only if circumstances prevent the timely processing of a significant number of the petitions or applications. DHS shall provide those who have requested premium processing with access to case status information and communications channels to the premium processing units.

DHS may expand premium processing to certain immigrant benefits and set fees for such processing without following certain rulemaking procedures if DHS meets certain requirements, such as limiting the premium fee to specified amounts.

The title also increases the fees charged for premium processing. DHS may, subject to requirements, biennially adjust premium fees to reflect inflation without following certain rulemaking requirements.

(Under current law, the child's school must be closed for at least five consecutive days for the household to be eligible for benefits, and states may provide the benefits using the Electronic Benefit Transfer system.)

The section also requires USDA to allow states to suspend certain requirements for quality control reviews from June 1, 2020, through September 30, 2021.
