

Survey Invitation to Registered Compounding Outsourcing Facilities

The outreach to key stakeholders to participate in the survey will include an email to all currently registered outsourcing facilities (OFs). The below provides a survey invitation for registered OFs.

Compounding Quality Center of Excellence: Invitation to Participate in a Survey to Inform CQCoE Research Priorities

Dear Outsourcing Facility,

We are Deloitte Consulting and we are supporting FDA with the Compounding Quality Center of Excellence. As you may know from previous engagement with the Center of Excellence, the Compounding Quality Center of Excellence aims to enhance collaboration with outsourcing facilities to improve the overall quality of compounded products. **We invite you to participate in a ~60-minute survey** to inform this year's research priorities of the Compounding Quality Center of Excellence. The survey is being administered by Deloitte Consulting as a third party and all responses to the survey will be **anonymous** and **non-attributable**. **Please take the survey [here](#).**

As we enter the third year of surveying industry stakeholders, the Compounding Quality Center of Excellence wants to hear your insights on targeted topics influencing the industry this year, such as assessing collaboration between stakeholders within the industry, 503B quality practices and improvements, and interactions with purchasers. Insights from these responses will support the Compounding Quality Center of Excellence's goal in assisting 503B facilities in areas of need, such as furthering CGMP expertise and improving responsiveness to provider need.

Please submit the survey by the **end of the day on [day], [Month, date], 2022** and **limit responses to one per compounding outsourcing facility**. Given the nature of the questions, we recommend that a member of your **leadership team** with broad oversight of the compounding outsourcing facility completes the survey and incorporate other team member(s) feedback into **one collective survey response per compounding outsourcing facility**. This will ensure responses incorporate perspectives from various roles within your facility and provide a well-rounded response from your compounding outsourcing facility.

We look forward to hearing from you and thank you in advance for your participation!

Best,

-Deloitte Consulting LLP, Compounding Quality Center of Excellence
