Public Burden Statement: The BHW Performance Report for Grants and Cooperative Agreements (PRGCA) is an annual performance and progress report required from each health professions and nursing education grantee that has an approved, funded project with a project period of one year or more. The report is required to determine the extent to which objectives of the project have been met so that a decision regarding continuation funding can be made. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0915-0061 and it is valid until 03/31/2025. This information collection is required to obtain or retain a benefit (Government Performance and Results Act (GPRA) of 1993 and the GPRA Modernization Act of 2010). Public reporting burden for this collection of information is estimated to average 2.8 hours per response to the annual performance report, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or paperwork@hrsa.gov.

#### 14.3. CHD-3: CHGME Hospital Data – Hospital Discharge Data by Zip Code

Please complete the following steps to enter locality data identifying the number of hospital discharges by zip code. First, download the excel template to enter the required data (see link below; alternatively, you can contact your Government Project Officer to acquire this template). Note that the structure of the Excel template must not be altered (i.e., do not add/remove/edit/rearrange columns or column headers). Complete each row of data entry by reporting (a) each zip code used by your program and (b) the corresponding number of hospital discharges. If you are reporting an overseas zip code, use code "88888". If the zip code is unknown, enter "00000".

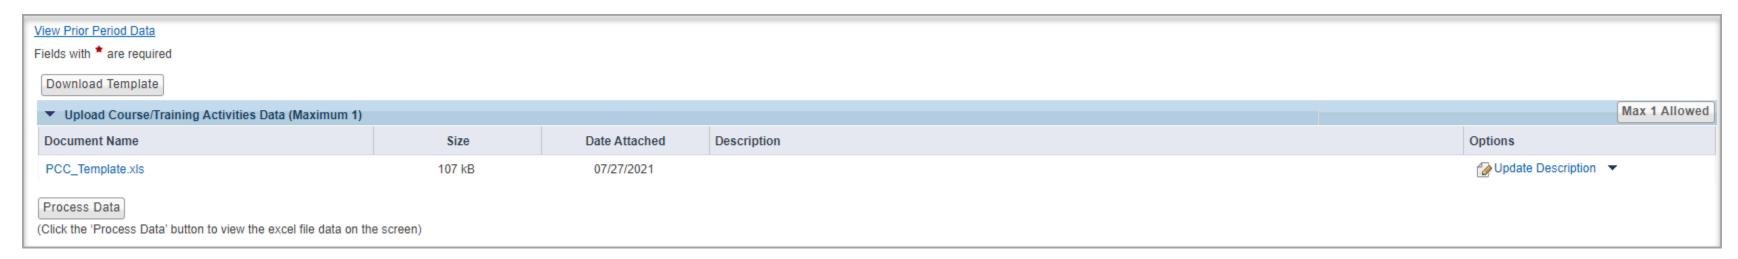

When you have completed data entry using the template, save your work to a local folder and follow the instructions to upload this file into BPMH (e.g., using the browse function to select your file from your local folder). Once your file has been uploaded, select the "Process Data" button, which will populate the table below with the data you entered into the excel template (i.e., zip codes and discharge counts). Next, select the "Save" button to automatically populate the city and state fields (based on the zip codes you have provided) and run the form validations. Errors in editable fields will be identified with a "Row" number and can be corrected either (a) within the BMPH system or (b) corrected in the original excel template and then re-uploaded. (Note- once uploaded into BMPH, template data cannot be downloaded back into an Excel format). After you have verified that all data are present and accurate, select the Save/Validate button to proceed to the next subform. Please refer to the instruction manual and/or contact your Government Project Officer if you have any questions about how to complete this form.

### 15. PCC: Program Curriculum Changes

Please list all courses and training activities implemented by your residency or fellowship program as part of its training/curriculum in the most recent academic year. Be sure to list all courses and training activities related to quality improvement and measurement, cultural competency, primary care, underserved populations, oral health, community health, diversity, etc. You do not need to list standard curriculum mandated for accreditation unless it falls into a category mentioned above. For all identified training activities/curriculum, indicate whether the topic was newly developed or enhanced since the previous year, select the standard topic area, and delivery mode. Also, please select the training sites where the curriculum was implemented from the list you indicated on the EXP form.
