Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New).

We've already discussed the following two questions with you but would like to document your answers electronically. If you have any questions about what we're asking, please talk to study staff before responding.

**Do you agree to take part in the study?**

\* must provide value

- Yes

We are asking you to agree to freeze part of your blood and oral fluid specimens at the CDC for future use. We may use these samples for research in the future. Nothing that could be linked to you will be kept with your blood or oral fluid specimens. We are not sure what studies might be done in the future. They might include standard tests as done at hospitals, tests for HIV or other viruses or on your immune system (ability to fight infection). We will not test for genetic problems or use the blood or oral fluid specimens for cloning or commercial purposes.

**Do you agree to storage of your specimens for future use?**

\* must provide value

- Yes, I give consent for my blood and oral fluid specimens to be stored at CDC for the future use as outlined above.  
 No, I DO NOT give consent for my blood and oral fluid specimens to be stored at CDC for future research.

We will now ask you some questions about sexual experiences you've had in the past 3 months. We only want to know about partners you had oral, anal or vaginal sex with since 11-17-2020.

Some questions will ask specifically about your sex partners' HIV status and what you did with partners who were HIV positive, HIV negative, and partners whose HIV status you did not know. We know you can't always be sure of a partner's HIV status. Please try to answer the questions based on what you knew and what your partners told you or did not tell you about their HIV status.

We know that it may be difficult to answer some of these questions if you or one or more of your sex partners do not identify as male or female, or if you or they are transgender. Except where we ask specifically about transgender partners, please include these sex partners in your responses to the questions about sex with either men or women, whichever you think is most appropriate.

We also know that how people refer to their genitals can be unique and personal. The following questions may use words that don't perfectly fit how you or your partners refer to your bodies. Please answer the questions about specific sex acts the best that you can.

The next questions are about women you had vaginal or anal sex with in the past 3 months. Vaginal sex means you put your penis in her vagina. Anal sex means you put your penis in her butt.

In the past 3 months, with how many different women did you have vaginal or anal sex?

If you refuse to answer this question, please enter "R".
