Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

In this survey, we will be asking questions similar to the ones that you were asked the day you first tested for HIV in this study on 12-02-2020. In these questions, we want to know about things that have happened in the time since 12-02-2020.

The next set of questions will be about sexually transmitted infections (STIs) other than HIV that you may have had since your first study visit on 12-02-2020.

Since your first study visit on 12-02-2020, has a healthcare provider told you that you had an STI other than HIV?

* must provide value

- Yes
 No

The next couple of questions will help us set up the rest of the questions in this section.

What gender do you consider yourself?

* must provide value

- Male
 Female
 Transgender: Male to Female
 Transgender: Female to Male
 Non-binary or Genderqueer
 Another gender not listed

reset

What was your sex assigned at birth?

* must provide value

- Male
 Female

reset

Since your first study visit on 12-02-2020, who have you had sex with? Sex includes any oral, anal, or vaginal sex. Check all that apply.

* must provide value

- Men
 Women
 Transwomen
 Transmen
 Non-binary or Genderqueer people
 People of another gender not listed
 I have not had sex since my first study visit

Since your first study visit on 12-02-2020, who have you had sex with? Sex includes any oral, anal, or vaginal sex.

* must provide value

We will now ask you some questions about sexual experiences you've had since your first study visit. We only want to know about partners you had oral, anal, or vaginal sex with since 12-02-2020.

Some questions will ask specifically about your sex partners' HIV status and what you did with partners who were HIV-positive, HIV-negative, and partners whose HIV status you did not know. We know you can't always be sure of a partner's HIV status. Please try to answer the questions based on what you knew and what your partners told you or did not tell you about their HIV status.

We know that it may be difficult to answer some of these questions if one or more of your sex partners do not identify as male or female, or if they are transgender. Except where we ask specifically about transgender partners, please include these sex partners in your responses to the questions about sex with either men or women, whichever you think is most appropriate.

We also know that how people refer to their genitals may be unique and personal. The following questions may use words that don't perfectly fit how you or your partners refer to your bodies. Please answer the questions about specific sex acts the best that you can.

The next questions are about women you had vaginal or anal sex with since your first study visit on 12-02-2020. Vaginal sex means you put your penis in her vagina. Anal sex means you put your penis in her butt.

Since your first study visit, with how many different women did you have vaginal or anal sex?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

With how many of these 1 women did you have vaginal or anal sex without using a condom or not using it the whole time?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

The next questions are about people you had sex with since your first study visit on 12-02-2020 who you didn't identify as "Women" or "Men." For the next few questions, we are only interested in persons you had penetrative sex with, and for these questions, we will refer to "vaginal sex" for sex where you put your penis in their vagina (or "front hole"). "Anal sex" means you put your penis in their butt (or "back hole").

Since your first study visit, with how many different people who you would not identify as female or male did you have vaginal or anal sex?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

With how many of these 1 people did you have vaginal or anal sex without using a condom or not using it the whole time?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

 

The next three questions are going to ask you about the HIV status (unknown, HIV-positive, or HIV-negative) of the 1 people with whom you had sex without using a condom since your first study visit.

Since your first study visit, how many of these 1 people you had vaginal or anal sex without using a condom were people whose HIV status you didn't know?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

Since your first study visit, how many of these 1 people you had vaginal or anal sex without using a condom were HIV-positive?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

Since your first study visit, how many of these 1 people you had vaginal or anal sex without using a condom were HIV-negative?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

 

The next questions are about men you had sex with since your first study visit on 12-02-2020. Oral sex means you put your penis in his mouth, or he put his penis in your mouth. Anal sex means you put your penis in his butt, or he put his penis in your butt.

Since your first study visit, with how many different men did you have oral or anal sex?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

  8

Since your first study visit, with how many different men did you have anal sex?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

  8

Since your first study visit, of the 8 men you had anal sex with, with how many different men did you have anal sex without a condom?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

  8

Since your first study visit, of the 8 men you had anal sex with, how many were new partners, meaning guys you had never had anal sex with before 12-02-2020?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

  4

The next few questions will ask about times you had sex with more than one man in the same encounter since your first study visit on 12-02-2020. For these questions, a threesome involves sex with you and two other men. Group sex involves sex with you and at least 3 other men. When the question asks about the number of partners you had during a threesome or group sex, please write the total number of different partners you had across all encounters.

Since your first visit, how many times did you have sex with more than one man in the same encounter (threesome or group sex)?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

Since your first visit, how many times did you have sex with only two other men in the same encounter (a threesome)?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

Since your first visit, in these 2 threesomes, with how many different men did you have anal sex?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

Since your first visit, of the 2 men you had anal sex with during threesomes, with how many different men did you have anal sex without a condom?

 

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

The next three questions are going to ask you about the HIV status (unknown, HIV positive, or HIV negative) of the 2 men with whom you had anal sex without using a condom in a threesome since your first study visit.

How many of these 2 men with whom you had anal sex without using a condom during threesomes were partners whose HIV status you didn't know?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

How many of these 2 men with whom you had anal sex without using a condom during threesomes were HIV positive?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

How many of these 2 men with whom you had anal sex without using a condom during threesomes were HIV negative?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

Since your first visit, how many times did you have sex with 3 or more other men in the same encounter (group sex)?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

Since your first visit, in these 2 times you had group sex (sex with 3 or more other men), with how many different men did you have anal sex?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

Since your first visit, of the 2 men you had anal sex with during group sex, with how many different men did you have anal sex without a condom?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

The next three questions are going to ask you about the HIV status (unknown, HIV positive, or HIV negative) of the 2 men with whom you had anal sex without using a condom in a threesome since your first study visit.

How many of these 2 men with whom you had anal sex without using a condom during group sex were partners whose HIV status you didn't know?

The next few questions will ask about times you and NP2 had sex with at least one other man together in the same encounter. For these questions, a threesome involves sex with you, NP2, and one other man (a total of 3 men). Group sex involves sex with you, NP2, and at least 2 other men (a total of 4 or more men). When the question asks about the number of partners you had during a threesome or group sex, please write the total number of different partners you had across all encounters.

Since your first study visit, did you and NP2 ever have sex with other people in the same encounter (threesome or group sex)?

Thank you for telling us about NP3.

The next questions are about any other partners that you haven't answered questions about yet. This should be the 6 men you had anal sex with since your first study visit on 12-02-2020 other than the new partners you may have already told us about. These could be partners that you had anal sex with before your first study visit and continued having sex with after OR new partners that you first had anal sex with after your first study visit. The questions will cover all of these partners as a group.

With how many of these 6 men did you have anal sex without using a condom or not using it the whole time?

Please enter a number. If you refuse to answer this question, please enter "R".

* must provide value

The next three questions are going to ask you about the HIV status (unknown, HIV positive, or HIV negative) of the 4 men you had anal sex without using a condom or not using it the whole time, since your first study visit on 12-02-2020 who you haven't answered questions about yet.
