Persons are not required to respond to this collection of information unless it displays a valid OMB control number. Public reporting burden for this collection of information includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Submission is required to obtain or retain benefits under SSA 303(a) (6). Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Labor, Office of Unemployment Insurance, Room S-4524, 200 Constitution Ave., NW, Washington, DC, 20210.

B. Purpose

All employer contributions and payments in lieu of contributions must be deposited into a Clearing Account established for unemployment funds and transferred immediately upon availability to the Unemployment Trust Fund. The ETA 8405 report is a record of clearing account transactions recorded in the books of each state.

C. Due Date and Transmittal

This report will be submitted electronically and is due in the National Office the 1st day of the second month after the month reported. January reports are due the 1st of March.

D. General Reporting Instructions

All account balance information for the clearing account is reported on the ETA 8405 report. Data used in preparing the ETA 8405 must be obtained from the books of the state workforce agency. If clearing accounts are maintained in more than one bank, separate reports are to be prepared for each bank account.

Only whole dollar figures should be reported. The beginning balance should agree with the ETA 2112 balance brought forward, line 01, column D. The beginning balance should also agree with the ending balance on the preceding month's 8405 for each account. If there is more than one clearing account, the sum of 8405 beginning balances are used to compare to the ETA 2112. The ending balance should agree with the ETA 2112, line 46, column D (see instructions for the ETA 2112). If there is more than one clearing account, the sum of 8405 ending balances is used to compare ending balances.

Edit checks can be found in Handbook 402, Unemployment Insurance Required Reports User's Manual, Appendix C.
