

Technical drawing showing a horizontal assembly of components, likely a mechanical or electrical system. The drawing includes a detailed view of a component on the left, a central section with a grid of green cells, and a right section with a grid of green and yellow cells. The drawing is oriented horizontally and contains various technical specifications and labels.

The drawing consists of several interconnected parts:

- Left Section:** A detailed view of a component with a vertical grid of green cells. It includes a title block and various technical specifications.
- Central Section:** A large grid of green cells, possibly representing a data table or a detailed view of a component. It is connected to the left section by a horizontal line.
- Right Section:** A grid of green and yellow cells, possibly representing a data table or a detailed view of a component. It is connected to the central section by a horizontal line.

The drawing is oriented horizontally and contains various technical specifications and labels. The green and yellow colors are used to highlight specific areas of the drawing.
