

Catfish Production

ISSN: 1948-271X

Released July 23, 2019, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, United States Department of Agriculture (USDA).

Water Surface Acres down Slightly

The water surface area to be used for catfish production in the three major producing States (Alabama, Arkansas, and Mississippi) during July 1 through December 31, 2019, totaled 57.9 thousand acres, down slightly from a year ago. Acres used for foodsize fish totaled 46.3 thousand acres, down slightly from the same time period in 2018. Acres used for fingerling production are unchanged at 7.41 thousand acres, and acres for broodfish are unchanged at 1.74 thousand acres. Of the total acres in production, 1.56 thousand were scheduled to be renovated from July 1, 2019, to December 31, 2019, while acres taken out of production during the January 1, 2019, through June 30, 2019, period totaled 1,110 acres.

Foodsize Inventory up 6 Percent

Catfish operations in the three major producing States had 111 million foodsize fish on hand on July 1, 2019, up 6 percent from July 1, 2018. The breakouts of foodsize fish inventory numbers on July 1, 2019, with their respective percent change from the previous year were: large foodsize, 2.41 million fish, down 16 percent; medium foodsize, 31.0 million fish, down 1 percent; and small foodsize, 77.2 million fish, up 10 percent. The three major States also had 730 thousand broodfish on hand on July 1, 2019, up 34 percent from last year's 545 thousand broodfish.

Catfish operations in the three major producing States had 296 million stockers on hand on July 1, 2019, down 8 percent from the July 1, 2018, total of 322 million stockers. The breakouts of stocker fish inventory numbers on July 1, 2019, with their respective change from the previous year were: large stockers, 149 million fish, down 18 percent; and small stockers, 147 million, up 5 percent from last year. Producers had 512 million fingerlings and fry on hand on July 1, 2019, down 5 percent from July 1, 2018.

Water Surface Acres Used for Production – Major States: 2018 and 2019

State	Water surface acres used for production July 1 - December 31	
	2018 (acres)	2019 (acres)

(X) Not applicable.

Statistical Methodology

Survey Procedures: All known catfish producers in the three published states are surveyed to collect production data. Individual NASS regional field offices maintain a list of all known catfish producers and use known sources of producers to update their lists. Operators are mailed a questionnaire as close as possible to July 1 and given time to respond by mail. Those that do not respond by mail are telephoned or possibly enumerated in person during the middle of July.

Estimating Procedures: Sound statistical methodology is employed to derive the estimates from reported data. All data are analyzed for unusual values. Data from each operation are compared to their own past operating profile and to trends from similar operations. Missing data for large operations are estimated based on similar operations or historical data. Summary expansions account for the remaining non-response operations. NASS regional field offices prepare these estimates by using a combination of survey indications and historic trends. Individual State estimates are reviewed by the Agricultural Statistics Board for reasonableness.

Revision policy: Estimates for the previous year are subject to revision when current estimates are made. Revisions are the result of late or corrected data. Due to sequestration, NASS did not produce July catfish production estimates in 2013.

Reliability: In the three published states, catfish production estimates are based on a census of all known active producers and therefore, have no sampling variability. However, estimates are subject to errors such as omissions, duplication, and mistakes in reporting, recording, and processing the data. While these errors cannot be measured directly, they are minimized through strict quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

Terms and Definitions Used for Catfish Production Estimates

Broodfish: Fish kept for egg production, including males. Broodfish produce the fertilized eggs, which go to hatcheries. The most desirable size is 3 to 10 pounds or 4 to 6 years of age.

Fingerlings: Fish weighing 2 to 60 pounds per 1,000 fish or 2 to 6 inches in length.

Foodsize (large): Fish weighing over 3 pounds.

Foodsize (medium): Fish weighing over one and one-half pounds to 3 pounds.

Foodsize (small): Fish weighing over three-fourths of a pound to one and one-half pounds.

Fry: Fish weighing less than 2 pounds per 1,000 fish or less than 2 inches in length.

Stockers (large): Fish weighing over 180 pounds to 750 pounds per 1,000 fish.

Stockers (small): Fish weighing over 60 pounds to 180 pounds per 1,000 fish or over 6 inches in length.

Information Contacts

Listed below are the commodity specialists in the Livestock Branch of the National Agricultural Statistics Service to contact for additional information. E-mail inquiries may be sent to nass@nass.usda.gov

Travis Averill, Chief, Livestock Branch	(202) 720-3570
Tony Dorn, Head, Poultry and Specialty Commodities Section	(202) 690-3223
Holly Brenize – Poultry Slaughter.....	(202) 720-0585
Alissa Cowell-Mytar – Cold Storage, Capacity of Refrigerated Warehouses	(202) 720-4751
Liana Cuffman – Catfish and Trout, Egg Products, Mink, Census of Aquaculture	(202) 720-8784
Adam Peters – Broiler Hatchery, Chicken Hatchery	(202) 690-3237
Kim Linonis – Layers, Eggs	(202) 690-3676
Fatema Haque – Turkey Hatchery, Turkeys Raised	(202) 720-3244
Vacant – Cost of Pollination, Honey, Honey Bee Colonies	(202) 720-6147

Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: www.nass.usda.gov
- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit www.nass.usda.gov and click on “National” or “State” in upper right corner above “search” box to create an account and select the reports you would like to receive.
- Cornell’s Mann Library has launched a new website housing NASS’s and other agency’s archived reports. The new website, <https://usda.library.cornell.edu>. All email subscriptions containing reports will be sent from the new website, <https://usda.library.cornell.edu>. To continue receiving the reports via e-mail, you will have to go to the new website, create a new account and re-subscribe to the reports. If you need instructions to set up an account or subscribe, they are located at: <https://usda.library.cornell.edu/help>. You should whitelist notifications@usda-esmis.library.cornell.edu in your email client to avoid the emails going into spam/junk folders.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the [USDA Program Discrimination Complaint Form](#) (PDF), found online at www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.
