(0535-0002) Wildlife Damage & Attitudes Toward Wildlife Survey

NASS is currently approved to conduct the Wildlife Damage & Attitudes Toward Wildlife survey annually when funded. NASS conducts this survey under a cooperative agreement with State Cooperators. The Missouri Department of Conservation inquired about adding one additional questions to the survey to determine if any changes to antlerless permit availability are needed. They would like to add the question "Which of the following best describes how current antlerless permit availability impacts your ability to manage deer on the land you own/operate?"

The sample size will remain the same and there will be no expected overall increase in respondent burden.

 Which of the following best describes to manage deer on the land you own/ 	how current antierless permit availability impacts your ability operate? (Check only one box)
xxxx ₁ Current antlerless permit availa deer on the land I own/operate	bility is appropriate and allows me to effectively manage
² Current antlerless permit availa deer on the land I own/operate.	bility is too restrictive to allow me to effectively manage
•	oility is too liberal to allow me to effectively manage deer o overharvest on neighboring properties.
