**General notes**

- Skip patterns are noted informally and will be programmed formally when survey is finalized
- New text added to adapted questions is indicated with underline and bracketed font
- Our internal notes are in brackets and italics
- Numeric codes will be standardized once survey questions/response options are finalized
- Response option order/randomization will be added once questions/response options are finalized
- Questions were taken or adapted from NYTS, PATH, or other literature, where applicable. Questions and response options were adapted or updated where the team deemed it was necessary. For example, the age question and responses were originally

taken from NYTS, however this survey includes young adults, so response options were added to include those 19-25.

- Below each question is “ASK” which guides who each question is given to, depending on their use status.
