

CDC Worksite Health Scorecard

Public reporting of this collection of information is estimated to average 75 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-1014).

Respondents/Sources	Method	Content	Timing	Respondents	Time per Respondent
Employers (e.g., wellness/human resources Representative)	Online	<ul style="list-style-type: none"> Presence of health promoting practices and programs 	Participants may begin the survey immediately after they agree to participate, establish an account, and receive a login code via email.	800	1.25 hrs

The CDC Worksite Health ScoreCard is a tool designed to help employers assess whether they have implemented evidence-based health promotion interventions or strategies in their worksites to prevent heart disease, stroke, and related conditions such as hypertension, diabetes, and obesity.

Although chronic diseases are among the most common and costly of all health problems, adopting healthy lifestyles can help prevent them. A wellness program aimed at keeping employees healthy is a key long-term human asset management strategy. To curb rising health care costs, many employers are turning to workplace health programs to make changes in the worksite environment, help employees adopt healthier lifestyles and, in the process, lower their risk of developing costly chronic diseases. The approach that has proven most effective is to implement an evidence-based comprehensive health promotion program that includes individual risk reduction programs, coupled with environmental supports for healthy behaviors and is coordinated and integrated with other wellness activities. To better understand these employer-based workplace health programs, the U.S. Centers for Disease Control and Prevention (CDC) is conducting this organizational survey of employer workplace health programs, policies, and practices.

The assessment contains 154 questions that assess how evidence-based health promotion strategies are implemented at a worksite. These strategies include health promoting counseling services, environmental supports, policies, health plan benefits, and other worksite programs shown to be effective in preventing heart disease, stroke, and related health conditions. Employers can use this tool to assess how a comprehensive health promotion and disease prevention program is offered to their employees, to help identify program gaps, and to prioritize across the following health topics:

- Organizational Supports (25 questions)
- Tobacco Use (8 questions)
- Nutrition (14 questions)
- Physical Activity (10 questions)
- Weight Management (4 questions)
- Stress Management (7 questions)
- Depression (7 questions)
- High Blood Pressure (6 questions)
- High Cholesterol (5 questions)
- Prediabetes and Diabetes (6 questions)

- Heart Attack and Stroke (12 questions)
- Alcohol and Other Substance Use (6 questions)
- Maternal Health Lactation Support (7 questions)
- Sleep and Fatigue (8 questions)
- Occupational Health and Safety (9 questions)
- Vaccine-Preventable Diseases (6 questions)
- Musculoskeletal Disorders (7 questions)
- Cancer (7 questions)

In this survey, worksite is defined as a building, unique location, or business unit within an organization where work occurs. A worksite can include a campus of multiple buildings if all buildings are in close proximity (walking distance) and defined as part of the organization.

On average, it will take you 75 minutes to complete the survey. You may need to consult with another person to provide the most accurate and complete information on your workplace health programs, policies, and practices. Examples of people to consult with include human resource managers, health benefit managers, health education staff, occupational nurses, medical directors, wellness directors, or others responsible for worksite health promotion in an organization.

Completing the survey is voluntary. No names will ever be reported.

If you have any questions, you can contact Jason Lang at the Centers for Disease Control and Prevention. His phone number is 770-488-5597 and his email is jlang@cdc.gov.

Instructions

- Answer “yes” or “no” for each question on the tool.
- All questions should be answered consistently with your worksite practices and programs that are current or that have been in place within the last 12 months.
- There are 19 sections to the tool; you may complete each section in separate sittings and in any order. Individual scores can be tallied for each section and combined for an overall score once all sections are completed. The entire survey will take approximately 75 minutes to complete.
- We recommend that you form a small team, representing different organizational units to complete this survey together. A team-based approach will allow for more accurate responses, increase ownership and involvement amongst the team, and decrease effort for any single team member. Since a strong knowledge of your organization and its health promotion program(s) is recommended to accurately complete the tool, strive to pick team members who occupy the following positions:
 - o Members of a worksite health promotion committee
 - o Human resource managers
 - o Health benefits managers
 - o Health education staff
 - o Occupational nurses
 - o Medical directors
 - o Wellness directors
 - o Health promotion coordinators
 - o Building facilities managers

- Scan each section before attempting to respond. Answers to most questions are readily available following a review of organizational health policies (e.g., a policy handbook), benefit plan designs, interviews with key stakeholders, and direct observation. In some cases, answers may not be immediately obvious to the person assigned to complete the section. If you do not know the answer to the question, leave the box empty, and then engage others at the worksite to help you answer it.
- Some questions ask you to describe your health insurance plan. If your organization offers more than one health insurance option, refer to the health insurance plan with the highest enrollment.
- Throughout the survey, questions refer to “health promotion” at your worksite. This is also known as “worksite wellness” or “wellness programs”.

The CDC Worksite Health ScoreCard is a tool designed to help employers assess whether they have implemented evidence-based health promotion interventions or strategies in their worksites to prevent heart disease, stroke and related conditions such as hypertension, diabetes and obesity. It provides guidance on key evidence-based strategies that employers can put in place to promote a healthy workforce, increase productivity, and reduce the risk and associated cost of poor employee health.

Organizational Supports
Topic 2 of 19

Organizational Supports

[0] of [1] Points for this Topic During the past 12 months, did your worksite...

- 1. Demonstrate organizational commitment and support of worksite health promotion at all levels of management?**
 Answer "yes" if, for example, all levels of management participate in activities, send communications to employees, or have performance objectives related to healthy workforce.

Yes No
- 2. Include references to improving or maintaining employee health and safety in the business objectives, core values, or organizational mission statement?**

Yes No
- 3. Have a strategic plan that includes goals and measurable organizational objectives for the health promotion program?**
 Answer "yes" if, for example, your organization identifies SMART (i.e., specific, measurable, achievable, realistic, time bound) goals and objectives.

Yes No
- 4. Have an annual budget or receive dedicated funding for health promotion programs?**

Yes No
- 5. Have an active and diverse health promotion committee?**
 Answer "yes" if, for example, your health promotion committee is routinely engaged in planning and implementing programs, and includes workers from all levels of the organization, various departments, as well as representatives from special groups (e.g., remote workers, organized labor).

Yes No
- 6. Have a paid health promotion coordinator whose job (either part-time or full-time) is to manage the worksite health promotion program?**
 Answer "yes" if the staff member is located on or off site and has responsibility for health promotion as part of his or her job description or performance expectations.

Yes No
- 7. Conduct an employee needs and interest survey for planning health promotion activities?**
 Answer "yes" if, for example, your organization administers surveys or conducts focus groups to assess your employees' readiness, motivation, or preferences for health promotion programs.

Yes No
- 8. Conduct employee health risk appraisals (HRAs) or health assessments (HAs) and provide individual feedback plus health education resources for follow-up action?**
 Answer "yes" if, for example, your organization conducts HRAs through vendors, on-site staff, or health plans and provides individual feedback through written reports, letters, or one-on-one counseling.

Yes No
- 9. Conduct ongoing evaluations of health promotion programming that use multiple data sources to inform decision-making?**
 Answer "yes" if, for example, your organization routinely measures the quality and impact of health promotion programs. This may be measured using data on employee health risks, medical claims, employee satisfaction, or organizational climate surveys.

Yes No
- 10. Promote and market health promotion programs to employees?**
 Answer "yes" if, for example, your worksite's health promotion program has a brand name or logo or uses multiple channels of communication to inspire and connect employees to health promotion resources. These may include sharing employees' health-related "success stories."

Yes No
- 11. Use tailored health promotion communications to ensure that they are accessible and appealing to employees of different ages, genders, education levels, job categories, cultures, languages, or literacy levels?**

Yes No
- 12. Have a champion or network of champions who actively promote health promotion programs?**

Yes No
- 13. Use and combine incentives with other strategies to increase participation in health promotion programs?**
 Answer "yes" if, for example, your organization offers incentives such as gift certificates, cash, paid time off, product or service discounts, reduced health insurance premiums, employee recognition, or prizes.

Yes No
- 14. Use individual or team competitions or challenges in combination with additional interventions to support employees making behavior changes?**
 Answer "yes" if, for example, your organization offers physical activity competitions.

Yes No
- 15. Support employee volunteerism?**
 Answer "yes" if, for example, your organization supports participation in community events, such as corporate walks or school-based efforts.

Yes No

16. Implement or maintain healthy building design principles?
Answer "yes" if, for example, your worksite provides access to windows and natural light, communal spaces, and plants.
 Yes No

17. Extend access to key components of the program to all workers, including hard to reach workers (e.g., telecommuters, contract workers, night shift workers, part-time workers)?
Answer "yes" if, for example, your organization offers alternative options for participating in programs or services, such as 24-hour gym access or virtual access to lectures.
 Yes No

18. Provide an employee assistance program (EAP)?
Answer "yes" if, for example, employees have access to an EAP that offers services addressing financial health, depression, stress management, grief counseling, substance use, and other mental and emotional health issues.
 Yes No

19. Implement educational programming to improve health care consumerism?
Answer "yes" if, for example, your organization provides employees with written or interactive guidance on improving doctor-patient relationships, promoting patient-centered care, and appropriate use of medical resources.
 Yes No

20. Educate employees about preventive services and benefits covered by their health insurance plan on an ongoing basis, above and beyond what occurs during annual health insurance enrollment?
Answer "yes" if, for example, your worksite communicates information about benefits such as smoking cessation medication and counseling, weight management tools, and flu vaccinations through emails or newsletters that are distributed across the calendar year.
 Yes No

21. Provide and support flexible work scheduling policies?
Answer "yes" if, for example, policies allow for flextime schedules, the option to work at home, or allowing time during the day for employees to engage in health promotion activities.
 Yes No

22. Provide work-life balance programming and resources?
Answer "yes" if, for example, your worksite provides resources related to elder care, child care, tuition reimbursement or financial counseling.
 Yes No

23. Make any health promotion programs available to family members?
 Yes No

24. Offer all employees paid time off for days or hours absent due to illness, vacation, or other personal reasons (including family illness or bereavement)?
Answer "yes" if, for example, paid time off, not including paid parental leave, is provided to all benefits-eligible employees.
 Yes No

25. Coordinate programs for occupational health and safety with program for health promotion and wellness?
 Yes No

Tobacco Use Topic 3 of 19

Tobacco Use
[0] of [1] Points for this Topic During the past 12 months, did your worksite...

26. Have and promote a written policy banning tobacco use at your worksite?
Answer "yes" if, for example, your policy covers cigarettes and/or other tobacco products and is communicated to employees regularly through emails, newsletters, or signage in public places.
 Yes No

27. Provide educational materials that address tobacco cessation?
Answer "yes" if, for example, your worksite offers brochures, videos, posters, or newsletters on tobacco cessation, including referral to 1-800-QUIT-NOW or smokefree.gov, either as a single health topic or along with other health topics.
 Yes No

28. Provide and promote interactive educational programming on tobacco cessation?
Answer "yes" if, for example, your worksite offers "lunch and learns," seminars, workshops, or classes on tobacco cessation. These programs may be provided in group or individual settings, in-person or virtually (online, telephonically, mobile app); on or off site; through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners.
 Yes No

29. Provide and promote free or subsidized lifestyle coaching/counseling or self-management programs that equip employees with skills and motivation to quit using tobacco?
Answer "yes" if these programs are provided in group or individual settings; in-person or virtually (online, telephonically, mobile app); on or off site; through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners. This may include referral to 1-800-QUIT-NOW or smokefree.gov.
 Yes No

30. Prohibit the sale of tobacco products on company property?
 Yes No

31. Provide incentives for being a current non-smoker and for current smokers who are actively trying to quit tobacco by participating in a free or subsidized, evidence-based cessation program?
 Answer "yes" if, for example, your organization provides discounts on health insurance, additional life insurance for non-smokers, or other benefits for non-smokers and smokers who are actively trying to quit.
 Yes No

32. Provide health insurance coverage with free or subsidized out-of-pocket costs for FDA-approved prescription tobacco cessation medications?
 Answer "yes" if, for example, your organization provides coverage for inhalers, nasal sprays, bupropion (e.g., Zyban) and varenicline (e.g., Chantix).
 Yes No

33. Provide health insurance coverage with free or subsidized out-of-pocket costs for FDA-approved over-the-counter nicotine replacement products?
 Answer "yes" if, for example, your organization provides coverage for nicotine replacement gum, patches, or lozenges.
 Yes No

 Yes No

46. Provide and promote interactive educational programming on physical activity?
Answer "yes" if, for example, your worksite offers timely reminders/prompts to move, or "lunch and learns," seminars, workshops, or classes that teach and promote physical activity. These programs may be provided in group or individual settings, in-person or virtually (online, telephonically, mobile app); on or off site; through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners.
 Yes No

47. Provide and promote free or subsidized lifestyle coaching/counseling or self-management programs that equip employees with skills and motivation to set and meet their personal physical activity goals?
Answer "yes" if these programs are provided in group or individual settings; in-person or virtually (online, telephonically, mobile app); on or off site; through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners.
 Yes No

48. Provide an exercise facility on-site?
 Yes No

49. Subsidize or discount the cost of on or off site exercise facilities?
 Yes No

50. Provide or promote other environmental supports for recreation or physical activity?
Answer "yes" if, for example, your worksite provides trails or a track for walking/jogging, maps of suitable walking routes, a basketball court, treadmill workstations, lockers, a shower, or changing facility.
 Yes No

51. Post signs at elevators, stairwell entrances and other key locations and use design enhancements to encourage employees to use the stairs?
Design enhancements may include artwork, music, and good lighting in stairwells.
 Yes No

52. Provide and promote organized physical activity programs for employees (other than the use of an exercise facility)?
Answer "yes" if, for example, your worksite organizes walking groups, stretching programs, group exercise classes, recreational leagues, or buddy systems to create supportive social networks for physical activity.
 Yes No

53. Provide or promote the use of activity trackers to support physical activity?
Answer "yes" if, for example, your worksite provides or subsidizes the cost of pedometers, wearable trackers, online tools, or mobile apps.
 Yes No

54. Encourage active transportation to and from work?
Answer "yes" if, for example, your worksite subsidizes public transportation; subsidizes a bike share program; provides secure bicycle storage, lockers and shower facilities for employees; allows for a flexible dress code; and/or organizes workplace challenges, employee recognition programs, or community events to increase active transportation.
 Yes No

59. Provide places to purchase food and beverages?
 Answer "yes" if, for example, your worksite provides vending machines, cafeterias, snack bars, or other purchase points. IF NO, PLEASE SKIP TO QUESTION 66
 Yes No

60. Have and promote a written policy that makes healthier food and beverage choices available in cafeterias or snack bars?
 Answer "yes" if, for example, your worksite has a policy or contract that makes vegetables, fruit, fish, whole grain items, nuts and legumes available in cafeterias and limits sugary beverages, unhealthy fats (saturated or trans fats), and highly-processed or high-sodium foods. This policy can be promoted to employees regularly through emails, newsletters, or signage in public places
 Yes No

61. Have and promote a written policy that makes healthier food and beverage choices available in vending machines or other vending outlets?
 Answer "yes" if, for example, your worksite has a policy or contract that makes nuts, whole grain items, trans fat-free/low-sodium snacks, vegetables, fruit, or unsweetened beverages available in vending machines. This policy can be promoted to employees regularly through emails, newsletters, or signage in public places.
 Yes No

62. Make most (more than 50%) of the food and beverage choices available in vending machines, cafeterias, snack bars, or other purchase points healthy food items?
 Answer "yes" if the healthy foods and beverages are items such as vegetables, fruit, unsweetened beverages, or low-sodium snacks.
 Yes No

63. Provide visible nutritional information (beyond standard food labels) on sodium, calories, trans fats, or saturated fats for foods and beverages sold in worksite cafeterias, snack bars, or other purchase points?
 Yes No

64. Identify healthier (or less healthy) food and beverage choices with signs or symbols?
 Answer "yes" if, for example, your worksite puts a heart () next to a healthy item or uses red-yellow-green color-coding to indicate the healthfulness of items in vending machines, cafeterias, snack bars, or other purchase points.
 Yes No

65. Subsidize or provide discounts on healthy foods and beverages offered in vending machines, cafeterias, snack bars, or other purchase points?
 Yes No

66. Have and promote a written policy making healthy food and beverage choices available in break rooms, during meetings, conferences or company sponsored events when food is served?
 Answer "yes" if, for example, the policy makes vegetables, fruits, unsweetened beverages, whole grain items, or trans fat-free/low-sodium snacks available during meetings. This policy can be promoted to employees regularly through emails, newsletters, or signage in public places.
 Yes No

67. Offer or promote an on-site or nearby farmers market or other arrangement where fresh fruits and vegetables are sold?
 This may include coordinating Community Supported Agriculture (CSA) or vendors/venues that are or are not operated by farmers.
 Yes No

68. Provide educational materials that address healthy eating?
 Answer "yes" if, for example, your worksite offers brochures, videos, posters, or newsletters that teach and promote healthy eating, either as a single health topic or along with other health topics.
 Yes No

69. Provide and promote interactive educational programming on nutrition?
 Answer "yes" if, for example, your worksite offers "lunch and learns," seminars, workshops, or classes that teach and promote healthy eating. These sessions can be provided in-person or virtually (online, telephonically, mobile app), on or off site, in group or individual settings, through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners.
 Yes No

70. Provide and promote free or subsidized lifestyle coaching/counseling or self-management programs that equip employees with skills and motivation to set and meet their personal nutrition goals?
 Answer "yes" if these programs are provided in group or individual settings, in-person or virtually (online, telephonically, mobile app), on or off site, in group or individual settings, through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners.
 Yes No

71. Provide employees with food preparation/storage facilities and a place to eat?
 Answer "yes" if, for example, your worksite provides a microwave oven, sink, refrigerator, and a place for employees to eat other than at their workstations.
 Yes No

72. Promote and provide access for increased water consumption?
 Answer "yes" if, for example, your worksite used promotional materials and improved access by increasing water in vending machines or installing water bottle filling stations or water fountains.
 Yes No

Stress Management

{0} of {1} Points for this Topic During the past 12 months, did your worksite...

98. Provide educational materials on stress management?
Answer "yes" if, for example, your worksite offers brochures, videos, posters, or newsletters that address aspects of stress management, including coping skills and relaxation techniques, either as a single health topic or along with other health topics.
 Yes No

99. 2. Provide and promote interactive educational programming on stress management?
Answer "yes" if, for example, your worksite offers "lunch and learns," seminars, workshops, or classes on topics such as assertiveness, coping, and relaxation techniques. Answer "yes" if these programs are provided in group or individual settings; in-person or virtually (online, telephonically, mobile app); on or off site; through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners.
 Yes No

100. Provide and promote free or subsidized lifestyle coaching/counseling or self-management programs that equip employees with skills and motivation to set and meet their personal stress management goals?
Answer "yes" if these programs are provided in group or individual settings; in-person or virtually (online, telephonically, mobile app); on or off site; through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners.
 Yes No

101. Provide dedicated space that is quiet where employees can engage in relaxation activities, such as deep breathing exercises?
 Yes No

102. Sponsor or organize social activities designed to improve engagement with others, and provide opportunities for interaction and social support?
Answer "yes" if, for example, your worksite sponsors or organizes team building events, company picnics, holiday parties, or employee sports teams.
 Yes No

103. Provide training for managers that improves their ability to recognize and reduce workplace stress-related issues?
Answer "yes" if, for example, your worksite provides training on performance reviews, communication, personnel management, assertiveness, time management, or conflict resolution.
 Yes No

104. Provide opportunities for employee participation in organizational decisions regarding workplace issues that affect job stress?
Answer "yes" if, for example, your worksite provides opportunities for employees to participate in decisions about work processes and environment, work schedules, participative problem-solving, and management of work demands.

Module 13: Alcohol and Other Substance Use (Q#105-Q#110)

2019 Worksite ScoreCard Save

Alcohol and Other Substance Use Topic 13 of 19

Alcohol and Other Substance Use

[0] of [1] Points for this Topic During the past 12 months, did your worksite...

105. Have and promote a written policy banning alcohol and other substance use at the worksite?
Answer "yes" if, for example, your worksite has a written policy that bans alcohol and other substance use at the worksite or while operating a motor vehicle, requires universal drug testing (in appropriate safety-sensitive industries), or indicates options offered for assistance and referral to behavioral health services. This policy can be communicated to employees regularly through emails, newsletters, or signage in public places.
 Yes No

106. Provide access to alcohol and other substance use screening followed by brief intervention and referral for treatment when appropriate?
Answer "yes" if, for example, these services are provided through a health risk assessment (HRA), health insurance plan, and/or employee assistance program (EAP).
 Yes No

107. Provide educational materials that help workers understand the risks of alcohol and other substance use and guide them to receive help?
Answer "yes" if, for example, your worksite offers brochures, videos, posters, or newsletters that address alcohol and other substance use, either as a single health topic or along with other health topics.
 Yes No

108. Provide and promote interactive educational programming that integrates health promotion with substance use prevention?
Answer "yes" if, for example, your worksite offers health promotion "lunch and learns", seminars, workshops, or classes. These may address alcohol and other substance use either directly or indirectly through topics such as stress management, conflict resolution, managing multiple priorities, personal finance planning, and team-building.
 Yes No

109. Discourage or limit access to alcohol or use of company funds for alcohol at work-related events?
 Yes No

110. Provide a health plan with insurance benefits that include substance use disorder prevention and treatment?
Answer "yes" if, for example, your worksite health plan offers coverage for medication-assisted treatment without prior authorization and lifetime limits, while preventing overuse of addictive substances such as opioid pain relievers (e.g., reimbursement for nonpharmacological treatments for pain, use of drug utilization review and pharmacy lock-in).

Sleep and Fatigue

6 of 11 Points for this Topic

During the past 12 months, did your worksite...

111. Have and promote a written policy related to the design of work schedules that aims to reduce employee fatigue?
Answer "yes" if, for example, your worksite has a policy related to self-scheduling, limiting the number of consecutive days or hours allowed to be worked, or specifying a minimum time interval between shifts.
No 0 of 2 pts.

112. Provide access to a self-administered sleep screening tool that provides a feedback report with recommendations for clinical action, as needed?
Yes 2 of 2 pts.

113. Provide educational materials that address sleep habits and treatment of common sleep disorders?
Answer "yes" if, for example, your worksite offers brochures, videos, posters, or newsletters that address topics such as recommended sleep schedules, recognizing the signs and symptoms of fatigue or daytime sleepiness, and appropriate use of caffeine.
No 0 of 1 pt.

114. Provide and promote interactive educational programming that addresses sleep habits and treatment of common sleep disorders?
Answer "yes" if, for example, your worksite offers "lunch and learns," seminars, workshops, or classes that teach and promote appropriate sleep habits. These programs may be provided in group or individual settings; in-person or virtually (online, telephonically, mobile app); onsite or offsite; through vendors, onsite staff, health insurance plans/programs, community groups, or other practitioners.
Yes 2 of 2 pts.

115. Provide training for managers to improve their understanding of the safety and health risks associated with poor sleep and their skills for organizing work to reduce the risk of employee fatigue?
No 0 of 1 pt.

116. Offer solutions to discourage distracted or drowsy driving?
Yes 1 of 1 pt.

117. Have and promote a written policy and program for monitoring the onset (and early detection) of ergonomic-related musculoskeletal symptoms?
Answer "yes" if, for example, employees are regularly informed through emails, newsletters, or signage in public places.
No 0 of 1 pt.

118. Conduct ergonomic assessments of work space design and equipment when problems are identified, or anticipated, to reduce the risk of musculoskeletal disorders?
Answer "yes" if, for example, the policy includes assessments of workstations, equipment, tools, manually-handled loads, or repetitive tasks conducted either on a schedule or when requested on an as needed basis.
Yes 1 of 1 pt.

119. Have and promote a written policy that requires regular evaluation of the design of work spaces and job requirements?
 Answer "yes" if, for example, the policy includes ergonomic assessments for office-based workers and is promoted to employees regularly through emails, newsletters, or signage in public places.
 Yes No

120. Conduct an ergonomic assessment of workstations, when appropriate, to reduce the risk of musculoskeletal disorders?
 Yes No

121. Make adjustments to job design, when appropriate, to reduce the risk of musculoskeletal disorders?
 Answer "yes" if, for example, your worksite has adjusted work routines and workloads, implemented job rotation, or mechanized tasks that pose increased risk.
 Yes No

122. Provide educational materials on musculoskeletal disorders?
 Answer "yes" if, for example, your worksite offers brochures, videos, posters, or newsletters that teach and promote strategies that minimize the incidence of musculoskeletal disorders such as ergonomic design, stretching, regular breaks, and weight management, either as a single health topic or along with other health topics.
 Yes No

123. Provide and promote interactive educational programming on musculoskeletal disorders?
 Answer "yes" if, for example, your worksite offers "lunch and learns," seminars, workshops, or classes that teach strategies that minimize the risk of musculoskeletal disorders such as ergonomic design, stretching, regular breaks, and weight management. These programs may be provided in group or individual settings: in-person or virtually (online, telephonically, mobile app); on or off site; through vendors, on-site staff, health insurance plans/programs, community groups, or other practitioners.
 Yes No

124. Provide training for managers that improves their ability to recognize potential risks for musculoskeletal disorders and refer employees to company/community resources?
 Yes No

125. Provide health insurance that includes appropriate access to therapies and treatment for musculoskeletal disorders?
 Answer "yes" if, for example, coverage options are aligned with best practices recommended by the Occupational Safety & Health Administration (OSHA), American College of Occupational & Environmental Medicine (ACOEM), or American College of Rheumatology.
 Yes No

126. Have and promote a written policy on injury prevention and occupational health and safety?
This policy can be promoted to employees regularly through emails, newsletters, or signage in public places.
 Yes No

127. Provide opportunities for employee input on hazards and solutions, and implement these solutions when appropriate?
Answer "yes" if, for example, there were all-hands meetings, surveys, or focus groups for discovering and solving job health and/or safety issues.
 Yes No

128. Encourage employees to report uncomfortable, unsafe, or hazardous working conditions to a supervisor, occupational health and safety professional or through another reporting channel?
Answer "yes" if, for example, employees are directed to report workplace injuries, bullying, or sexual harassment using a designated hotline.
 Yes No

129. Carefully investigate the primary cause of any reported work-related illnesses or injuries and take specific actions to prevent similar events in the future?
 Yes No

130. Provide educational materials about health and safety at work?
Answer "yes" if, for example, your worksite provides brochures, videos, posters, newsletters, or timely reminders for issues such as hand washing, taking breaks to reduce eye strain, or wearing personal protective equipment.
 Yes No

131. Provide and promote interactive educational programming on how to avoid accidents or injury on the job?
Answer "yes" if, for example, your worksite offers "lunch and learns," seminars, workshops, or classes that address injury prevention. These sessions can be provided in-person or virtually (online, telephonically, mobile app), on or off site, through vendors, on-site staff, or other practitioners.
 Yes No

132. Have a process in place for measuring and, if necessary, improving worksite air quality?
Answer "yes" if, for example, your worksite routinely tests heating, ventilation, and air conditioning (HVAC) systems, vacuums carpets, and controls moisture levels to prevent mold growth.
 Yes No

133. Make adjustments or provide resources where necessary to reduce the risk of eye injury or vision impairment?
Answer "yes" if, for example, your worksite provides proper lighting to work areas, protective eyewear in hazardous environments (e.g., factories, construction sites) or ergonomic setup at work stations.
 Yes No

134. Proactively support employees returning to work after illness or injury?
