Home / Population Health Assessment in Cancer Center Catchment Areas Meeting / Submit a Poster Abstract

OMB No.: 0925-0740
Expiration Date: 07/31/2022

Collection of this information is authorized by The Public Health Services Act, Section 410 (42 U.S.C. § 285 - US Code - Section 285: Purpose of Institute). Rights of applicants are protected by The Privacy Act of 1974. Participation is voluntary, and there are no penalties for not submitting an abstract or withdrawing an abstract from consideration at any time. Refusal to participate will not affect your benefits in any way. The information collected will be kept private to the extent provided by law and only made available to other meeting attendees. The information collected through this abstract submission page will enable the planning committee to select the most suitable research to present at the meeting.

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.

Deadline: 11:59 PM ET, Friday, January 10, 2020

Poster abstracts are being solicited to highlight the methods and findings of efforts to define and describe the catchment area populations of U.S. cancer centers. Submissions are not limited to NCI-designated cancer centers or P30 administrative supplement awardees. Grantees who were awarded P30 administrative supplements for catchment area assessments in 2018 do not need to submit an abstract for their oral presentation/main study, but junior investigators and co-investigators on those supplement grants are welcome to submit poster abstracts that highlight other uses of the survey data. Community groups and organizations who are partnering with cancer centers to use the data to inform population health activities are also welcome to submit poster abstracts to highlight their work. Please check the accuracy of all information before clicking the submit button.
