TITLE OF INFORMATION COLLECTION:

Center of Excellence in Chromosome Biology (CECB), Chromatin and Cell Fate Decisions in Development, Aging & Cancer Conference.

PURPOSE:

The mission of the Center of Excellence in Chromosome Biology (CECB) is to achieve a comprehensive understanding of the mechanisms involved in chromosome function, how aberrations in chromosomes and chromatin lead to disease and how these defects can be corrected.

Towards achieving our mission, this symposium brings together scientists in the fields of chromatin and chromosome biology, with the focus on stem cells, cell development, aging and cancer.

We hope this symposium offers an opportunity to learn more about the current status of chromosome structure and function in development and disease, the ability to share research, and to discuss the use and implications of these advances for clinical applications.
