Request for Approval under the "Conference, Meeting, Workshop, and Poster Session Registration Generic Clearance (OD)"

(OMB#: 0925-0740 Exp Date: 07/2022)

TITLE OF INFORMATION COLLECTION: ICARE DIALOGUES Registration for 8 sessions

PURPOSE:

This is an application to approve 8 ICARE Dialogues sessions.

The ICARE Project is a collaborative project of the US Government agencies that use animals, led by OLAW. PHS Assured institutions utilize ICARE training for their employees to facilitate effective functioning and decision-making of US Institutional Care and Use Committees (IACUCs) and their institutions to improve animal welfare and increase compliance with federal standards while minimizing regulatory burden.

ICARE Dialogues comprise a series of 8 virtual discussions limited to 25 attendees. The goal is to discuss issues relevant to the animal welfare community and collaboratively address compliance challenges. There is no cost to attendees. Topics of the dialogues include:

- Integrating Pandemic Restrictions into Policies and Programs
- Managing Teams Across Multiple Locations
- Impact of Diversity, Inclusivity, and Race Relations on ACUPs and Personnel
- Using Flexibility Provided in the PHS Policy and AWAR
- Optimizing Animal Welfare During the Pandemic Crisis

To better tailor the approaches and materials to the participants, the following information will be collected:

Registration will be in two parts:

- 1. Registration Part 1: information is collected through a third-party contractor website, Event Source Professionals, Inc. (ESP). This information is necessary to ensure the appropriate stakeholders register, and for processing registration and communicating session information to participants. Screenshots and questions are included in supporting documents. See file titled Supporting Documents Registration Part 1.
- 2. Registration Part 2: demographic data using the Qualtrics web-based platform to plan for future ICARE offerings based on such information as level of experience, role in Animal Care and Use Committees, etc. Numbers in demographics categories will determine if future offerings should be tailored as introductory, intermediate, or advanced. Gender, race and ethnicity data is also collected to ensure an inclusive and appropriately tailored ICARE program. For screenshots please see file titled Supporting Documents Registration Part 2.

DESCRIPTION OF RESPONDENTS:

Members of the animal welfare communities who choose to register for the ICARE Dialogues Online Discussion Groups (limited to 25 people for each of 3 sessions). These people comprise members of academic, corporate, not-for-profit, and government research institutions
