

Preparing for Science-Based Non-Traditional Careers (PSNC)

As fellows and staff scientists at the National Cancer Institute, many of you will be exploring and choosing from various science-based career options in the future. The Office of Training and Education (OTE) in the Center for Cancer Training (CCT) is hosting weekly workshops to help participants learn about the various career opportunities that lie outside of independent academic research. Given these may include unfamiliar roles outside of traditional bench science, we have invited guest speakers from various science-based backgrounds to provide information and insight that will help inform decisions about potential future endeavors. For details about course schedule, invited speakers, and program contacts, please visit the [PSNC website](#).

Registration will close on October 7, 2021. There is no registration fee. This workshop is open to all NCI postdoctoral, clinical fellows and staff scientists; however, registration is limited to the first 150 registrants. Due to the pandemic, this year's program will be held virtually. Details for attending each work will be sent prior to the start of the program.

Please fill out this form to register for this event.

OMB No.: 0925-0740
Expiration Date: 7/31/2022

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.
