

Relating Target Engagement to Clinical Benefit: Biomarkers
Registration Form Screenshots
<http://musichealth3.eventbrite.com/>

The screenshot shows the top portion of an Eventbrite event page. At the top left is the Eventbrite logo. On the right, there are search and sign-in icons. The main header area is dark blue with white text. It includes the U.S. Department of Health & Human Services and National Institutes of Health logos, the event title, the date 'AUG 25', and the text 'Free'. A green 'Register' button is located at the bottom right of this section.

Relating Target Engagement to Clinical Benefit: Biomarkers for Brain Disorders of Aging

About this Event

This is the last of three meetings that are part of Phase I of an NIH/Foundation for the National Institutes of Health (FNIH) project to develop evidence-based music therapies for brain disorders of aging.

This meeting will gather input from participants in the music therapy/music medicine, neuroscience, behavioral intervention development, clinical trial methodology, and patient advocacy/art organization communities. The NIH planning committee will identify and catalog a set of reliable, broadly accessible biomarkers to objectively and quantitatively monitor the responses of the brain and other physiological systems to music-based interventions in clinical studies. This core dataset of biomarkers will be used in future NIH-funded music-based intervention protocols.

Individuals who need reasonable accommodation to participate should contact info@nccih.nih.gov or the Federal Relay, 1-800-877-8339, by Wednesday, August 18.

OMB No.: 0925-0740

Expiration Date: 07/31/2022

Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.
