

[MASTER] NIH STRIDES Training Interest Survey

Complete this survey to identify upcoming training courses in the Amazon Web Services (AWS) and Google Cloud Platform (GCP) cloud platforms that are of interest to you.

OMB No.: 0925-0740

Expiration Date: 07/2022

Burden Disclosure: Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA#0925-0740. Do not return the completed for to this address.

* Required

* This form will record your name, please fill your name.

1. Name *

2. Preferred Email Address *

Please provide the email address you will use to access the online/virtual training content.

3. What is your NIH Institute, Center, or Office? *

- NCI
- NEI
- NHLBI
- NHGRI
- NIA
- NIAAA
- NIAID
- NIAMS
- NIBIB
- NICHD
- NIDCD
- NIDCR
- NIDDK
- NIDA
- NIEHS
- NIGMS
- NIMH
- NIMHD
- NINDS
- NINR
- NLM
- CC
- CIT
- CSR
- FIC
- NCATS
- NCCIH
- OD

4. Are you a current STRIDES participant? *

Yes

No

I am not sure

5. Did you complete a STRIDES Training last quarter? *

Yes

No

6. Which of the following training(s) did you complete? *

- Exam Readiness: AWS Certified Databases
- Exam Readiness: AWS Certified Data Analytics
- Exam Readiness Intensive Workshop: AWS Certified Solutions Architect - associate
- Exam Readiness: AWS Certified Solutions Architect - Associate
- Exam Readiness: AWS Certified Solutions Architect - Professional
- Advanced Architecting on AWS
- Advanced Developing on AWS
- Exam Readiness: AWS Certified Security - specialty
- Exam Readiness: AWS Certified Advanced Networking - specialty
- Exam Readiness: AWS Certified DevOps Engineer - Professional
- Exam Readiness: AWS Certified Developer - Associate
- Exam Readiness: AWS Certified SysOps Administrator - Associate
- Deep Learning on AWS
- Running Containers on Amazon Elastic Kubernetes Service (EKS)
- Exam Readiness: AWS Certified Solutions Architect - professional
- Exam Readiness: AWS Certified Machine Learning - specialty
- Architecting on AWS - Accelerator
- Architecting on AWS
- Developing on AWS
- Practical Data Science with Amazon Sagemaker
- Planning and Designing Databases on AWS
- The Machine Learning Pipeline on AWS
- Migrating to AWS
- Data Warehousing on AWS
- Security Engineering on AWS
- SysOps on AWS
- DevOps on AWS
- Big Data and Machine Learning on AWS
- Big Data on AWS
- AWS Technical Essentials Day
- AWS Technical Essentials
- AWS Security Essentials

- Secrets of Successful Cloud Transformations
- AWS Cloud Practitioner Essentials
- Advanced Skills and Certification Workshop: Security Engineer
- Advanced Skills and Certification Workshop: Associate Engineer
- Logging, Monitoring, and Observability
- Data Engineering on GCP
- Architecting with GCP: Design and Process
- Advanced Skills and Certification Workshop: Cloud Architect
- Advanced Skills and Certification Workshop: Data Engineer
- Advanced Skills and Certification Workshop: Cloud Developer
- Machine Learning with TensorFlow on GCP
- Architecting Hybrid Cloud Infrastructure with Google Anthos
- Architecting with Google Compute Engine
- Architecting with Google Kubernetes Engine
- From Data to Insights with Google Cloud Platform
- Security in Google Cloud Platform
- Developing Applications with Google Cloud Platform
- Networking in Google Cloud Platform
- Fundamentals of Life Science Tools in Google Cloud
- Google Cloud Fundamentals: Core Infrastructure
- Google Cloud Fundamentals: Big Data and Machine Learning
- Google Cloud Fundamentals for AWS Professionals
- Google Cloud Fundamentals for Azure Professionals
- Getting Started with Google Kubernetes Engine
- Build a Business Transformation Vision with Google Cloud Platform
- Migrating to the Cloud Foundations Workshop
- Leading Change in the Cloud Era
- Data Driven Decision Making with Google Cloud

7. Did the trainings identified above provide instruction that has advanced your work in the cloud? *

- Yes
- No

8. Which of the following subject areas did you find most valuable (click all that apply)? *

- Architecting
 - Artificial Intelligence/Machine Learning
 - Cloud Migration
 - Container Technology
 - Cost/Financial Management
 - Data Analytics/Big Data
 - Databases/Cloud Storage
 - Developing
 - DevOps
 - Fundamentals/Essentials-level Training
 - Networking/Security
 - SysOps
 -
- Other

9. What level of instruction do you require? *

Cloud Advanced: Assumes that the learner has exceptional cloud competencies and has completed at least two Cloud Experienced-level courses (or has equivalent experience).

Cloud Experienced: Hones existing skills (such as architect, developer, researcher/bioinformatics, etc.) by providing practical, in-platform instruction and builds on foundational cloud expertise through exposure to more advanced cloud concepts like Artificial Intelligence and Machine Learning.

Cloud Beginner: Establishes an introductory understanding of the cloud, assists in making the cloud more accessible for cloud novices, and provides limited technical exposure to cloud technology.

- Cloud Advanced
- Cloud Experienced
- Cloud Beginner

10. Which Advanced level training(s) would you like to attend? (Select all that apply) *

For AWS Course Descriptions visit: <https://www.aws.training/learninglibrary> (<https://www.aws.training/learninglibrary>), and search the course title
For GCP Course Descriptions visit: <https://cloud.google.com/training> (<https://cloud.google.com/training>), and search the course title

- Exam Readiness: AWS Certified Databases

- Security in Google Cloud Platform
- Developing Applications with Google Cloud Platform
- Networking in Google Cloud Platform
- Fundamentals of Life Science Tools in Google Cloud

12. Which Beginner level training(s) would you like to attend? (Select all that apply) *

For AWS Course Descriptions visit: <https://www.aws.training/learninglibrary> (<https://www.aws.training/learninglibrary>), and search the course title
For GCP Course Descriptions visit: <https://cloud.google.com/training> (<https://cloud.google.com/training>), and search the course title

- AWS Technical Essentials Day
- AWS Technical Essentials
- AWS Security Essentials
- Secrets of Successful Cloud Transformations
- AWS Cloud Practitioner Essentials
- Google Cloud Fundamentals: Core Infrastructure
- Google Cloud Fundamentals: Big Data and Machine Learning
- Google Cloud Fundamentals for AWS Professionals
- Google Cloud Fundamentals for Azure Professionals
- Getting Started with Google Kubernetes Engine
- Build a Business Transformation Vision with Google Cloud Platform
- Migrating to the Cloud Foundations Workshop
- Leading Change in the Cloud Era
- Data Driven Decision Making with Google Cloud

13. How do you anticipate Cloud Training impacting your work? *

14. How would you categorize your work? *

- Traditional Research
- Computational Research
- Research IT Support
- Traditional IT Support
- Administrative

Other

15. What other cloud and/or data science training topics would you like to see offered in the future? *
