Technical Assistance Webinar—Developing Quantitative Imaging & Other Relevant Biomarkers of Myofascial Tissues for Clinical Pain Management

About this event

The National Institutes of Health (NIH) will sponsor **two** events on **December 2, 2021** and **January 6, 2022** related to the Funding Opportunity Announcement (FOA) HEAL Initiative: Developing Quantitative Imaging and Other Relevant Biomarkers of Myofascial Tissues for Clinical Pain Management (R61/R33, Clinical Trial Required). The FOA is a partnership between the National Center for Complementary and Integrative Health (NCCIH), the National Institute of Biomedical Imaging and Bioengineering (NIBIB), and 9 other NIH Institutes and Centers.

Technical Assistance Webinar

December 2, 2021 from 3:00 - 4:00 p.m. ET

Informational Webinar for HEAL Initiative: Developing Quantitative Imaging and Other Relevant Biomarkers of Myofascial Tissues for Clinical Pain Management (R61/R33, Clinical Trial s Clinical Clinical Trial Required)—RFA_AT [LINK to RFA].

Date and time

Thu, December 2, 2021
3:00 PM - 4:00 PM EST

Location

Online event

Technical Assistance Webinar—Developing Quantitative Imaging & Other Relevant Biomarkers of Myofascial Tissues for Clinical Pain Management
Registration Form Screenshots
<https://healmyofascialwebinar.eventbrite.com>

This technical assistance webinar is intended to provide an overview of the initiative, guidance on application preparation process, and address applicant questions. All webinar registrants will be prompted to indicate their areas of expertise, what additional areas of expertise they are looking for their teams, and whether they are willing to share their email addresses along with their areas of expertise with other webinar registrants. We are asking this information during the EventBrite registration to better facilitate potential team building interactions during the researchers networking session.

Upcoming Event

Researchers Networking Session

January 6, 2022 from 3:00 – 4:00 p.m. ET

Interactive Facilitated Conversations with HEAL Program Officers and Other Experts on Topic-Specific Research Areas (RFA [[LINK to RFA](#)]).

The researchers networking session will provide an interactive, team building experience for webinar registrants to have facilitated conversations with HEAL program officials and topic experts related to technical requirements of the R33 phase of the RFA. Participants will join breakout rooms.

NOTE: Both events are optional and not required for application submission. They will be recorded and archived to view if you aren't able to attend.

Individuals who need reasonable accommodation to participate should contact info@nccih.nih.gov by Friday, November 19.

OMB#: 0925-0740

Expiration Date: 07/31/2022

Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.
