States and jurisdictions are required to complete the reporting document. The reporting document is comprised of the following sections:

Section A. Introduction

Title XIX, Part B, Subpart III of the Public Health Service Act (42 U.S.C. 300x-52(a)), requires the Secretary of the Department of Health and Human Services, acting through the Assistant Secretary of the Substance Abuse and Mental Health Services Administration (SAMHSA), to determine the extent to which states and jurisdictions have implemented the state plan for the prior fiscal year. The purpose of the annual report is to provide information to assist the secretary in making this determination.

States and jurisdictions are required to prepare and submit their reports for the last completed state fiscal year (SFY), in the format provided in this guidance. The report will address the purposes for which the MHBG were expended, the recipients of grant funds, and the authorized activities conducted, and services purchased with such funds. Particular attention should be given to the progress made toward accomplishing the goals and performance indicators identified in the states and jurisdictions' plans.

All states and jurisdictions are required to prepare and submit their respective reports utilizing SAMHSA's Web Block Grant Application System (BGAS). This report must be received by SAMHSA no later than December 1, in order for the state or jurisdiction to receive its next grant. If the due date falls on a weekend or federal holiday, the report will be due on the next business day. The following schedule includes specific due dates for annual reports:

Due Dates for MH and Combined BG Components								
FY the state is	Application	Plan	Planning Period	MHBG Report				
applying for funds	Due	Due		Due				
2020	9/2/2019	Yes	7/1/19 - 6/30/21	12/1/2019				
				Report year is Last				
				Completed SFY				
2021	9/1/2020	No	Updates only	12/1/2020				
				Report year is Last				
				Completed SFY				

Section B: Implementation Report - In this section, states, and jurisdictions are required to provide a brief review of the extent to which their respective plans were implemented, the progress towards the priorities and goals identified in the Block Grant plan, covering the last completed fiscal year. The report should also include a brief review of areas the state or jurisdiction identified in that Block Grant Plan, as needing improvement and changes the state or jurisdiction would propose to achieve the goals established for the priorities.

Section C: State Agency Expenditure Reports - In this section, states and jurisdictions should provide information regarding expenditures for authorized activities and services for mental health.

Section D: Populations and Services Report - In this section states and jurisdictions must provide specific information regarding the number of individuals served that are the focus of the state's Mental Health Bock Grant plan. States should report all mental health clients whose care is funded by MHBG, State funds, and any other funds the SMHA considers part of their behavioral health system. In addition, states and jurisdictions should provide specific information regarding the services, these individuals received.

Section E: Performance Indicators and Accomplishments - In this section of the report, states and jurisdictions are required to complete the Performance Indicator tables. Performance indicators should be reported using the table format provided in this document. The purpose of the performance indicator tables is to show progress made over time as measured by SAMHSA's National Outcome Measures (NOMS) for mental health services including any state- or jurisdiction-selected performance indicators.

B. Implementation Report

The information states and jurisdictions entered into the performance indicator tables (Plan Table 1) in the planning section of the 2020/2021 Behavioral Health Assessment and Plan will automatically populate cells 1 - 6 in the progress report tables below. States and jurisdictions are required to indicate whether each year performance target/outcome measurement identified in the 2020/2021 Plan was "Achieved" or "Not Achieved" in Cell 7, Report of Progress toward goal attainment. If a target was not achieved, a detailed explanation must be provided and remedial steps proposed to meet the target.

C. State Agency Expenditure Reports

States and jurisdictions should provide information regarding MHBG, Medicaid , other federal funding sources, state, local and other funds expended for authorized activities to treat mental illness during the last completed SFY. Please complete the tables described below.

Please Note: Data for all tables contained in the Uniform Reporting System (URS) will continue to be submitted into the URS database maintained by the URS Contractor. Please complete the tables described below.

MHBG Table 2a (URS Table 7) - *State Agency Expenditure Report*. MHBG Table 2 provides information on Mental Health Expenditures and Sources of Funding. This includes funding from Medicaid, the MHBG and other federal funding sources, state, local and other funds.

MHBG Table 2b - *State Agency Early Serious Mental Illness (ESMI) Expenditures Report:* MHBG Table 2b provides information on Mental Health Expenditures and Sources of Funding specifically for the First Episode Psychosis (FEP) Programs as well as other Early Serious Mental Illness (ESMI) programs through the MHBG 10% set-aside. This includes funding from Medicaid, the MHBG and other federal funding sources, state, local and other funds. The inclusion of local funds is important but is optional.

MHBG Table 3 - *Set-aside for Children's Mental Health Service*: This table provides a report of statewide expenditures for children's mental health services during the last completed SFY. States are required to provide systems of integrated services for children with SED.

Each year the State shall expend not less than the amount expended in FY 1994. If there is a shortfall in funding available for children's mental health services, the state may request a waiver. A waiver may be granted if the Secretary determines that the State is providing an adequate level of comprehensive community mental health services for children with SED, as indicated by comparing the number of children in need of such services with the services actually available within the State. The Secretary shall approve or deny the request for a waiver no later than 120 days after the request has been made. A waiver granted by the Secretary shall be applicable only for the fiscal year in question.

MHBG Table 4 (URS Table 8) - *Profile of Mental Health Block Grant Expenditures for Non-Direct Service Activities*. MHBG Table 4 is used to report expenditures of MHBG funds for non-direct service activities that are funded or conducted by the State Mental Health Authority during the last completed SFY.

MHBG Table 5 (URS Table 10) - Profiles of Agencies Receiving Block Grant Funds Directly from the state MHA. This table, reports payments to recipients of MHBG funds including intermediaries, (e.g., administrative service organizations, and other organizations), which provided mental health services during the last completed SFY, including services for those with a first episode psychosis (FEP) and early serious mental illness (ESMI) programs.

MHBG Table 6 - *Maintenance of Effort for Statewide Expenditures for Mental Health Service:* This table reports expenditures of all statewide, non-Federal expenditures for authorized activities to treat mental illness during the last completed SFY.

MHBG Table 2a (URS Table 7) - State Agency Expenditure Report

This table describes expenditures for public mental health services provided by mental health providers funded by the state mental health agency by source of funding.

Comments on Data:					

^aThe 24-month expenditure period for the COVID-19 Relief supplemental funding is March 15, 2021 – March 14, 2023, which is different from the expenditure period for the "standard" MHBG. Per the instructions, the standard MHBG expenditures captured in Columns A – G are for the state planned expenditure period of July 1, 2020 – June 30, 2021, for most states.

^bThe expenditure period for The American Rescue Plan Act of 2021 (ARP) supplemental funding is September 1, 2021 – September 1, 2025, which is different from the expenditure period for the "standard" MHBG. Per the instructions, the standard MHBG expenditures captured in Columns A – G are for the state planned expenditure period of July 1, 2020 – June 30, 2021, for most states."

^cStates may only use MHBG funds to provide primary prevention services to the priority populations of adults with serious mental illness and children with severe emotional disturbance.

^dColumn 3B is for expenditures related to ESMI including Frist Episode Psychosis programs funded through MHBG set-aside. These funds are not to be also counted in #8 Ambulatory/Community Non-24-Hour Care.

^cRow 10 should include Crisis Services programs funded through different funding sources, including the MHBG set aside. States may expend more than 5 percent of their MHBG allocation.

Are the expenditure amounts reported in Column B "actual" expenditures for the fiscal years involved?

	Yes	No
SFY 2018		
SFY 2019		
SFY2020		

States are required to submit sufficient information for the Secretary to make a determination of compliance with the statutory maintenance of effort (MOE) requirements.¹ MOE information is necessary to document that the State has maintained expenditures for community mental health services at a level that is not less than the average level of such expenditures maintained by the State for the 2-year period preceding the fiscal year for which the State is applying for the grant. The State shall only include community mental health services expenditures for individuals that meet the federal or state definition of SMI adults and SED children. States that received approval to exclude funds from the maintenance of effort calculation should include the appropriate MOE approval documents.

A. MOE Exclusion

The Secretary may exclude from the aggregate amount any State funds appropriated to the principal agency for authorized activities of a non-recurring nature and for a specific purpose.²

A request for MOE exclusion should meet the following requirements:

The State shall request the exclusion separately from the application.

The request shall be signed by the State's Chief Executive Officer or by an individual authorized to apply for CMHS Block Grant on behalf of the Chief Executive Officer.

The State shall provide documentation that supports its position that the funds were appropriated by the State legislature for authorized activities which are of a non-recurring nature and for a specific purpose; indicates the length of time the project is expected to last in years and months; and affirms that these expenditures would be in addition to funds needed to otherwise meet the State's maintenance of effort requirement for the year for which it is applying for exclusion.

The State may not exclude funds from the MOE calculation until such time as the SAMHSA Administrator has approved in writing the State's request for exclusion.

B. MOE Shortfalls

¹Section 1915(b)(1) of the PHS Act (42 USC 300x-4). ²Section 1915(b)(2) of the PHS Act (42 USC 300x-4).

States are expected to meet the MOE requirement. If a state cannot meet the MOE requirement, the legislation permits relief, based on the recognition that extenuating circumstances may explain the shortfall. These conditions are described below.

1. Waiver for Extraordinary Economic Conditions

A state may request a waiver to the MOE requirement if it can be demonstrated that the MOE deficiency was the result of extraordinary economic conditions that occurred during the State Fiscal Year in question. An extraordinary economic condition is defined as a financial crisis in which the total tax revenues declined at least one and one-half percent, and either the unemployment increases by at least one percentage point, or employment declines by at least one and one-half percent.

2. Material Compliance

If the state is unable to meet the requirements for a waiver under extraordinary economic conditions, the authorizing legislation does permit the Secretary, under certain circumstances, to make a finding that even though there was a shortfall on the MOE, the State maintained material compliance with the MOE requirement for the fiscal year in question. Therefore, the State is given an opportunity to submit information that might lead to a finding of material compliance. The relevant factors that SAMHSA considers in making a recommendation to the Secretary include: (1) whether the State maintained service levels; (2) the State's mental health expenditure history; and (3) the State's future commitment to funding mental health services.

D. Populations and Services Report

States and jurisdictions are required to provide information regarding individuals that are served by the state mental health authority using MHBG Tables 7 through 14.

MHBG Table 7 (URS Table 1) *Profile of the State Population by Diagnosis:* MHBG Table 7 provides the number of Adults with serious mental illness (SMI) and Children with serious emotional disturbance (SED) in the reporting year and in three years forward. Data for this table is prepared for the States by SAMHSA.

MHBG Tables 8A and 8B (URS Tables 2A and 2B) *Profile of Persons Served, All Programs by Age, Gender and Race/Ethnicity: MHBG* Tables 8A and 8B provide an aggregate profile of unduplicated persons in the reporting year. The reporting year should be the latest SFY for which data are available. This profile is based on a client receiving services in programs provided or funded by the state mental health agency. The client profile takes into account all institutional and community services for all such programs. States and jurisdictions are to provide this information on all programs by age, gender, and race/ethnicity.

MHBG Table 9 (URS Table 3) *Profile of Persons Served in the Community Mental Health Settings, State Psychiatric Hospitals, and Other Settings:* MHBG Table 9 provides an aggregate profile of unduplicated persons in the reporting year for services provided or funded through the MHBG. The reporting year should be the latest SFY for which data are available. The client profile takes into account all institutional and community services for all such programs. States and jurisdictions are to provide this information on all programs by age, gender, and race/ethnicity.

MHBG Table 10A and 10bB (URS Tables 5A and 5B) *Profile of Clients by Type of Funding Support* MHBG Tables 10A and 10B provide the number of female and male clients by race and ethnicity that have Medicaid Only, Non-Medicaid Sources, Both Medicaid and Non-Medicaid, and Status Not Available.

MHBG Table 11 (URS Table 6) *Profile of Client Turnover* MHBG Table 11 requests information regarding the profile of client turnover in various out-of-home settings (e.g. state hospitals, inpatient psychiatric hospitals, residential treatment centers). Information collected by this table requests admissions, discharges, and length of stay.

MHBG Table 12 (URS Table 12) *State Mental Health Agency Profile* MHBG Table 12 provides the Populations covered in state hospitals and community program in age categories 0-3, 4-17 and 18 and above.

MHBG Tables 13A and 13 B (URS Tables 14A and 14B) *Profile of Persons with SMI/SED Served By Age, Gender and Race/Ethnicity* MHBG Tables 13A, and 13B request counts for persons with SMI or SED using the definitions provided by the CMHS. MHBG Tables 13A and 13B included individuals receiving services in programs provided or funded by the state mental health agency. These tables count only clients who meet the CMHS definition of SMI or SED. States and jurisdictions should report using the Federal Definitions of SMI and SED if they can report them, if not, please report using the state's definitions of SMI and SED and provide information in these tables describing your state's definition.

MHBG Table 14 (URS Table 15A) *Profile of Persons Served in the Community Mental Health Settings, State Psychiatric Hospitals, and Other Settings for Adults with SMI and Children with SED* This table provides a profile for Adults with Serious Mental Illnesses (SMI) and Children With Serious Emotional Disturbances (SED) that received public funded mental health services in community mental health settings, in state psychiatric hospitals, in other psychiatric inpatient programs, and in residential treatment centers for children.

MHBG Table 7 (URS Table 1). Profile of the State Population by Diagnosis

This table summarizes the estimates of adults residing within the state with serious mental illness (SMI) and children residing within the state with serious emotional disturbances (SED). The table calls for estimates for two-time periods, one for the report year and one for three years into the future. CMHS will provide this data to states based on the standardized methodology developed and published in the Federal Register and the state level estimates for both adults with SMI and children with SED.

MHBG Table 8A (URS Table 2A). Profile of Persons Served, All Programs by Age, Gender, Race/Ethnicity

This table provides an aggregate profile of persons in the reporting year. The reporting year should be the latest state fiscal year for which data are available. This profile is based on a client receiving services in programs provided or funded by the state mental health agency. The client profile takes into account all institutional and community services for all such programs. Please provide unduplicated counts if possible.

MHBG Table 10A. Profile of Clients by Type of Funding Support (URS Table 5A)

This table provides a summary of clients by Medicaid coverage. Since the focus of the reporting is on clients of the public mental health service delivery system, this table focuses on the clientele serviced by public programs that are funded or operated by the State Mental Health Authority. Persons are to be counted in the Medicaid row if they received a service reimbursable through Medicaid.

Please note that the same person may be served in both Medicaid and Non-Medicaid programs during the same reporting period.

Comments on Data (for Race):
Comments on Data (for Gender):
Comments on Data (Overall):

Each row should have a unique (unduplicated) count of clients: (1) Medicaid Only, (2) Non-Medicaid Only, (3) Both Medicaid and Other Sources funded their treatment, and (4) Medicaid Status Not Available.

If a state is unable to un-duplicate between people whose care is paid for by Medicaid only or Medicaid and other funds, then all data should be reported into the 'People Served by Both Medicaid and Non-Medicaid Sources' and the 'People Served by Both includes people with any Medicaid' check box should be checked.

MHBG Table 13A (URS Table 14A). Profile of Persons with SMI/SED served by Age, Gender and Race/Ethnicity

This table requests counts for persons with SMI or SED using the definitions provided by SAMHSA. MHBG Table 8A and 8B (URS Table 2A and 2B) included all clients served by publicly operated or funded programs. This table counts only clients who meet the federal definition of SMI or SED. For many states, this table may be the same as MHBG Tables 8 A and 8B (URS Table 2A and 2B). States should report using the Federal Definitions of SMI and SED if they can report them, if not, please report using your state's definitions of SMI and SED and provide information below describing your state's definition.

Note: Clients can be duplicated between Rows (e.g., The same client may be served in both state psychiatric hospitals and community mental health centers during the same year and thus would be reported in counts for both rows).

Instructions:

- 1 States that have county psychiatric hospitals which serve, as surrogate state hospitals should report persons served in such settings as receiving services in state hospitals.
- 2 If forensic hospitals are part of the state mental health agency system, include them.
- 3 Persons who receive non-inpatient care in state psychiatric hospitals should be included in the Community MH Program Row
- 4 Persons, who receive inpatient psychiatric care through a private provider or medical provider licensed, or contracted through the SMHA, should be counted in the "Other Psychiatric Inpatient" row. Persons who

receive Medicaid funded inpatient services through a provider that is not licensed or contracted by the SMHA should not be counted here.

- 5 A person who is served in both community settings and inpatient settings should be included in both rows
- 6 RTC: CMHS has a standardized definition of RTC for Children: "An organization, not licensed as a psychiatric hospital, whose primary purpose is the provision of individually planned programs of mental health treatment services in conjunction with residential care for children and youth primarily 17 years old and younger. It has a clinical program that is directed by a psychiatrist, psychologist, social worker, or psychiatric nurse who has a master's degree or doctorate. The primary reason for the admission of the clients is mental illness that can be classified by either DSM-V or ICD-10 codes other than the codes for mental retardation, developmental disorders, and substance-related disorders such as drug abuse and alcoholism (unless these are co-occurring with a mental illness)."

E. Performance Data and Outcomes

MHBG Table 15A (URS Table 4) *Profile of Adult Clients by Employment Status*, MHBG Table 15A describes the status of adults clients served in the report year by the public mental health system in terms of employment status. The focus is on employment for the working age population, recognizing, however, that there are clients who are disabled, retired or who are homemakers, care-givers, etc., and not a part of the workforce. These persons should be reported under the, "Not in Labor Force" category. This category has two subcategories: retired and other (The total of these two categories should equal the number listed in the "Not in Labor Force" column). Unemployed refers to persons who are looking for work but have not found employment. Data should be reported for clients in non-institutional settings, at time of discharge or last evaluation.

MHBG Table 15B (URS Table 4A) Optional Table: *Profile of Adult Clients by Employment Status, by Primary Diagnosis Reported*, MHBG Table 15B request information on the status of adult clients served in the report year by the public mental health system in terms of employment status by primary diagnosis reported.

MHBG Table 16 (URS Table 9), *Social Connectedness and Improved Functioning*, MHBG Table 16 requests states and jurisdictions to provide information for youth and adults regarding Social Connectedness. In addition, states are required to provide information on functional domains that provide a general sense of an individual's ability to develop and maintain relationships, cope with challenges and a sense of community belonging.

MHBG Table 17A (URS Table 11), *Summary Profile of Client Evaluation of Care*, MHBG Table 17A requests information that evaluates the "experience" of care for individuals that participate in the public mental health system. Specifically, the evaluation focuses on several areas including access, quality and the appropriateness of services, participation in treatment planning and general satisfaction with services. Please provide unduplicated counts, if possible. This table provides an aggregate profile of persons served in the reporting year. The reporting year should be the latest state fiscal year for which data are available. This profile is based on a client's last known Living Situation.

MHBG Table 17B (URS Table 11A), Optional Table: *Consumer Evaluation of Care by Consumer Characteristics: Race/Ethnicity*, MHBG Table 17B requests information that evaluates the "experience" of care for individuals that participate in the public mental health system, broken down by race, ethnicity, and age category (adult or child/adolescent).

MHBG Table 18 (URS Table 15), *Living Situation Profile*, MHBG Table 18 requests information regarding the number of Individuals in Each Living Situation as collected by the most recent assessment in the reporting period. Specifically, information is collected on the individual's last known living situation. Living situations include, but are not limited to, private residence, foster care, residential care, jail/correctional facility, homeless shelter and other.

MHBG Table 19 (URS Table 11), Summary Profile of Client Evaluation of Care, MHBG Table 19 Profile of Adults with Serious Mental Illness and Children with Serious Emotional Disturbances Receiving Specific Services. MHBG Table 19 requests information regarding the number and demographics of individuals that are receiving specific evidenced-based services. In addition, the table requests information on if and how States and Jurisdictions monitor the fidelity for the evidenced based services.

MHBG Table 19a (URS Table 16a), Adults with Serious Mental Illness and Children with Serious Emotion Disturbances receiving Evidence Based Services for First Episode Psychosis. Table 19a requests information regarding the number of individuals that are receiving evidenced-based services for first Episode Psychosis (FEP). In addition, the table requests information on if, and how, states and jurisdictions monitor the fidelity for the FEP evidenced-based services.

MHBG Table 20A (URS Table 16), *Profile of Adults with Serious Mental Illnesses and Children with Serious Emotional Disturbances Receiving Specific Services*, MHBG Table 20A requests information regarding the number and demographics of individuals that are receiving specific evidenced-based services. In addition, the table requests information on if, and how states and Jurisdictions monitor the fidelity for the evidenced based services.

MHBG Table 20B (URS Table 17), *Profile of Adults with Serious Mental Illnesses Receiving Specific Services during the Year*, MHBG Table 20B provides the number of unduplicated Adults with SMI receiving family psycho education, integrated treatment for co-occurring disorders, illness self-management and medication management.

MHBG Table 21 (URS Table 19A), *Profile of Criminal Justice or Juvenile Justice Involvement*, MHBG Table 21 requests information to measure the change in Arrests over time.

MHBG Table 22 (URS Table 19B), *Profile of Change in School Attendance*, MHBG Table 22 measures the change in days attended over time. Information required includes information on suspensions, expelled, and changes in the school attendance.

MHBG Table 23A (URS Table 20A), *Profile of Non-Forensic (Voluntary and Civil-Involuntary) Patients Readmission to Any State Psychiatric Inpatient Hospital Within 30/180 Days of Discharge*, MHBG Table 23A provides the total number of discharges within the year, the number of readmissions within 30-days and 180-days and the percent readmitted by age, gender, race, and ethnicity.

MHBG Table 23B (URS Table 20B), *Profile of Forensic Patients Readmission to Any State Psychiatric Inpatient Hospital within 30/180 Days of Discharge*, MHBG Table 23B provides the total number of discharges within the year, the number of readmissions within 30-days and 180-days and the percent readmitted by age, gender, race, and ethnicity.

MHBG Table 24 (URS Table 21),Optional Table: *Profile of Non-Forensic (Voluntary and Civil-Involuntary Patients) Readmission to Any Psychiatric Inpatient Care Unit (State Operated or Other Psychiatric Inpatient Unit) within 30/180 Days of Discharge*, MHBG Table 24 provides the total number of discharges from inpatient care units within the year, the number of readmissions within 30-days and 180-days and the percent readmitted by age, gender, race, and ethnicity.

MHBG Table 15A (URS Table 4) Profile of Adult Clients by Employment Status

This table describes the status of adult clients served in the reporting year by the public mental health system, in terms of employment status. The focus is on employment for the working age population, recognizing, however, there are clients who are disabled, retired, or who are homemakers, care-givers, etc., and not a part of the workforce. These persons should be reported in the "Not in Labor Force" category. This category has two subcategories: retired and other, (The total of these two categories should equal the number listed in the "Not in Labor Force" column). Unemployed refers to persons who are looking for work but have not found employment. Data should be reported for clients in non-institutional settings at time of discharge or last evaluation.

MHBG Table 15B (URS Table 4A), Optional Table: Profile of Adult Clients by Employment Status: by Primary Diagnosis Reported

The workgroup exploring employment found that, the primary diagnosis of consumer results in major differences in employment status. The workgroup has recommended that we explore the ability of states to report employment by primary diagnosis and the impact of diagnosis on employment. The workgroup recommended 5 diagnostic clusters for reporting.

	6. Other: describe:			
5. Are Responses And	nymous, Confidential, or Linked to	other Patient Data	bases?	
6. Sample Size and Re	esponse Rate			
6a How many Survey	s were Attempted (sent out or calls	initiated)?		
6.b How many survey	Contacts were made? (surveys to	valid phone number	s or addresses)	
6.c How many survey	s were completed? (survey forms re	turned or calls com	pleted)	
6.d What was your res	ponse rate? (number of Completed	surveys divided by	number of Co	ntacts)
6. e If you receive "bl	ank" surveys back from consumers	(surveys with no re	esponses on the	em), did you count these surveys as "completed" for the
calculation of respons	e rates?			
7. Who Conducted the	e Survey			
7.a. SMHA Conducted	d or contracted for the Survey (surv	ey done at state leve	el)	
7.b. Local Mental Hea	lth Providers/County mental health	providers conducte	ed or contracted	d for the survey
(survey was do	one at the local or regional level)			
7.c Other: Describe:				

* Report Confidence Intervals at the 95 percent confidence level

Note: The confidence interval is the plus-or-minus figure usually reported in newspaper or television opinion poll results. For example, if you use a confidence interval of 4 and 47 percent of your sample picks an answer you can be "sure" that if you had asked the question of the entire relevant population between 43 percent (47-4) and 51 percent (47+4) would have picked that answer.

The confidence level tells you how sure you can be. It is expressed as a percentage and represents how often the true percentage of the population who would pick an answer lies within the confidence interval. The 95 percent confidence level means you can be 95 percent certain; the 99 percent confidence level means you can be 99 percent certain. Most researchers use the 95 percent confidence level.

When you put the confidence level and the confidence interval together, you can say that you are 95 percent sure that the true percentage of the population is between 43 percent and 51 percent. (From www.surveysystem.com)

Child/Family Consumer Surveys

1. Was the MHSIP Children/Family Survey (YSS-F) Used?

If No, what survey did you use?

If no, please attach instrument used.

1.c. Did you use any translations of the Child MHSIP into another language?

2. Other Language:

Child Survey Approach:

2. Populations covered in survey? (Note: all surveys should cover all regions of state)

2.a. If a sample was used, what sample methodology was used?

4. Other Sample:

2.b Do you survey only people currently in services, or do you also Survey Persons no longer in service?

2a. If yes to 2, please describe how your survey persons no longer receiving services.

3. Please Describe the populations included in your sample: (e.g., all children, only children with SED, etc.)

3.4 Other: describe: (for example, if you survey anyone served in the last 3 months, describe that here):

MHBG Table 21 (URS Table 19a) Profile of Criminal Justice or Juvenile Justice Involvement:

1. The SAMHSA National Outcome Measure for Criminal Justice measures the change in Arrests over time.

2. If your SMHA has data on Arrest records from alternatives sources, you may also report that here. If you only have data for arrests for consumers in this year, please report that in the T2 columns. If you can calculate the change in Arrests from T1 to T2, please use all those columns.

3. Please complete the check boxes at the bottom of the table to help explain the data sources that you used to complete this table.

4. Please tell us anything else that would help us to understand your indicator (e.g., list survey or MIS questions; describe linking methodology and data sources; specify time period for criminal justice involvement; explain whether treatment data are collected).

What is the Total Number of Persons Survey	red, or for whom Criminal Justice Data are Reported	Child/Adolescents Adults	
1. If data is from survey, what is the total nu	mber of people from which the sample was drawn?		
2. What was your sample size (How many in	ndividuals were selected for the sample)?		
3. How many survey Contracts were made (surveys to valid phone numbers or addresses)?		
4. How many surveys were completed (surv was not a Survey. How many persons we	ey forms returned or calls completed), if data source ere CJ data available for?		
5. What was your response rate? (number of	f completed surveys divided by number of Contracts)):	
State Comments/Notes:			
Instructions:			
If you have responses to a survey by person responses in the Adult categories, since that		ose responses with other responses from the survey (e.g., if a 16 o	r 17 year old responds to the Adult MHSIP survey, please include their

Table 22 (URS Table 19b) Profile of Change in School Attendance

1. The SAMHSA National Outcome Measure for School Attendance measures the change in days attended over time. The DIG Outcomes Workgroup pilot tested 3 consumer self-report items that can be used to provide this information. If your state has used the 3 Consumer Self-Report items on School Attendance, you may report them here.

2. If your SMHA has data on School Attendance from alternatives sources, you may also report that here. If you only have data for School attendance for consumers in this year, please report that in the T2 columns. If you can calculate the change in Attendance from T1 to T2, please use all these columns.

3. Please complete the check boxes at the bottom of the table to help explain the data sources that you used to complete this table.

4. Please tell us anything else that would help us to understand your indicator (e.g., list survey or MIS questions; describe linking methodology and data sources; specify time period for criminal justice involvement; explain whether treatment data are collected).
