## COACH LOG OVERVIEW

Thank you for participating in the Variations in Implementation of Quality Interventions (VIQI) Project! As part of this study, we would like you to answer some questions about the teaching staff you coach, including their implementation of the VIQI intervention and your coaching process. This information is crucial to helping us understand the effects of coaching on teaching practices that support children’s developmental outcomes.

Your responses to these questions will be kept private to the extent permitted by law. Participation does not involve any risks other than what you would encounter in daily life. There is a small risk that your information could be lost, stolen, or misused, even though we follow strict rules to protect your information. The study team will follow strict procedures to protect your responses, and your responses will only be used for research and program improvement purposes. Your responses to items are voluntary. Your responses will be stored in password protected computer files and in locked research facilities. The data will be used only by the research team and other researchers bound by the same security requirements described here. We also may share de-identified responses with researchers looking at other education research topics who agree that they will protect your information.

The coach log will take approximately 15 minutes to complete.

If you have any questions, please contact Michelle at [Michelle.Maier@mdrc.org](mailto:Michelle.Maier@mdrc.org). Thank you!

## INSTRUCTIONS FOR COMPLETING ONLINE LOG

Please complete this Coach Log on how your teachers are responding to coaching and how they are implementing the VIQI Intervention during your coaching session. Please read each item carefully and select the option that best applies. Your responses should be based on what occurred during your coaching session with the teachers or in the classroom.

We ask that you complete this log after each coaching session with a classroom that you are assigned. The log will take approximately 15 minutes to complete per classroom. We ask that you complete and submit each log within 24 hours of the coaching session, if possible.

## COACH LOG OVERVIEW

Thank you for participating in the VIQI project! As part of this study, we would like you to answer some questions about the teaching staff you coach, including their implementation of the VIQI Intervention and your coaching process. This information is crucial to helping us understand the effects of coaching on teaching practices that support children’s developmental outcomes.

Your responses to these questions will be kept private to the extent permitted by law. Participation does not involve any risks other than what you would encounter in daily life. There is a small risk that your information could be lost, stolen, or misused, even though we follow strict rules to protect your information. The study team will follow strict procedures to protect your responses, and your responses will only be used for research and program improvement purposes. Your responses to items are voluntary. Your responses will be stored in password protected computer files and in locked research facilities. The data will be used only by the research team and other researchers bound by the same security requirements described here. We also may share de-identified responses with researchers looking at other education research topics who agree that they will protect your information.

The coach log will take approximately 15 minutes to complete.

If you have any questions, please contact Michelle at [Michelle.Maier@mdrc.org](mailto:Michelle.Maier@mdrc.org). Thank you!

7. Using a 1 to 5 rating scale, with ‘1’ being easy and ‘5’ being difficult, how difficult was it for this classroom to deliver **CREATIVE CURRICULUM** during today’s classroom observation?

<b>0</b> 1	<b>0</b> 2	<b>0</b> 3	<b>0</b> 4	<b>0</b> 5
<b>Easy</b>				<b>Difficult</b>

8. Select the response option that best describes this classroom’s activities and teaching practices during today’s classroom observation:

<input type="checkbox"/> <sub>1</sub>	<input type="checkbox"/> <sub>2</sub>	<input type="checkbox"/> <sub>3</sub>
---------------------------------------	---------------------------------------	---------------------------------------

<p><b>More child-directed or child-led</b> (for example, most of the activities were unstructured and children could choose what to do)</p>	<p><b>A mix of child- and teacher-directed</b> (for example, some activities were more structured and the teacher guided children through them and some activities were more unstructured and children could choose what to do)</p>	<p><b>More teacher-directed or teacher-led</b> (for example, most of the activities were structured and led by the teacher)</p>
---	---	---

Respond to the following two items thinking about the classroom as a whole:

9. Report on how much of Creative Curriculum was implemented during today's classroom observation.

○ 1	○ 2	○ 3	○ 4	○ 5
<p><b>None of activities observed were from Creative Curriculum.</b> A Study was <u>not</u> implemented.</p>		<p><b>Some</b> evidence of a Study being implemented, or <b>some</b> of the activities observed were from Creative Curriculum. Evidence of curriculum content observed in one or two parts of the day.</p>		<p><b>A lot</b> of evidence of a Study being implemented and <b>many</b> of the activities observed were from Creative Curriculum. Evidence of curriculum content observed in multiple parts of the day.</p>

10. It is clear when you enter this classroom and look around it is a **CREATIVE CURRICULUM** classroom.

○ 1	○ 2	○ 3	○ 4	○ 5
--------	--------	--------	--------	--------

Creative Curriculum activities are <b><u>not implemented as written or do not capture the "spirit"</u></b> of the curriculum or the learning objectives of the activities. Teachers appear to be only "going through the motions"; OR Creative Curriculum is <b><u>not</u></b> being implemented.	Classroom implements <b><u>many Creative Curriculum activities as written, but does not consistently capture the "spirit"</u></b> or meet the learning objectives of Creative Curriculum.	<b><u>"Exemplary" classroom.</u></b> All or almost all Creative Curriculum activities are conducted at a high level of quality and in a way that fully captures the "spirit" and learning objectives of the curriculum.
