New Capacity & Utilization Entry For **August 20, 2021** [SUBMIT] [CANCEL]

Entering Data For: August 20, 2021

It is critical to the COVID-19 response that all of the information listed below is provided to the Federal Government on the requested reporting schedule to facilitate planning, monitoring, and resource allocation during the COVID-19 Public Health Emergency (PHE). All fields are **mandatory** unless otherwise noted in the HHS Guidance.

Note: Provide data entries for all requested fields. Enter 0 or select N/A (if available) if the item is not applicable at your facility.

Note: The web form is pre-populated with the most recent non-null submission for each data point. Please update each data point as necessary. [Learn more about Composite Records.](#)

Upload Data File: [Choose File] No file chosen
If you do not have the template, please download it from [here](#).

Staffed Bed Capacity

2a. All hospital beds 320	3a. All hospital inpatient beds 91	4a. All hospital inpatient bed occupancy 91	5a. ICU beds 4
2b. All adult hospital beds 91	3b. Adult hospital inpatient beds 91	4b. Adult hospital inpatient bed occupancy 91	5b. Adult ICU beds 4
6a. ICU bed occupancy 4	6b. Adult ICU bed occupancy 4		

HHS Teletracking COVID-19 Portal (U.S. Healthcare COVID-19 Portal) Information Collection

Screenshots of Application

The screenshot shows a web browser window with the URL `teletracking.protect.hhs.gov/newentry`. The page header identifies the user as Kevin Duvall and the facility as Saint Elsewhere Hospital. The main content area is titled "New Capacity & Utilization Entry For August 20, 2021" and contains three sections: Ventilators, Hospitalizations, and ED/Overflow.

Ventilators

7. Total mechanical ventilators	25
8. Mechanical ventilators in use	1

Hospitalizations

9a. Total hospitalized adult suspected or confirmed positive COVID patients	12
9b. Hospitalized adult confirmed-positive COVID patients	12
10a. Total hospitalized pediatric suspected or confirmed positive COVID patients	0
10b. Hospitalized pediatric confirmed-positive COVID patients	0
11. Hospitalized and ventilated COVID patients	0
12a. Total ICU adult suspected or confirmed positive COVID patients	0
12b. Hospitalized ICU adult confirmed-positive COVID patients	0
13. Hospital onset	0

ED/Overflow

HHS Teletracking COVID-19 Portal (U.S. Healthcare COVID-19 Portal) Information Collection

Screenshots of Application

The screenshot displays the HHS Teletracking COVID-19 Portal interface. The browser address bar shows the URL `teletracking.protect.hhs.gov/newentry`. The page header includes the hospital name, address, and various identifiers (CCN, NPI, AHA, NHSN OrgID). The main content area is titled "New Capacity & Utilization Entry For August 20, 2021" and contains several data entry fields:

- 14. ED/overflow: 2
- 15. ED/overflow and ventilated: 0
- 19. Previous day's total ED visits: 112
- 20. Previous day's total COVID-19-related ED visits: 7

Below these fields is a section titled "Previous Day's COVID-19 Deaths" with field 16. Previous Day's COVID-19 Deaths: 0.

Another section titled "Previous Day's Admissions" includes a note: "The age brackets under fields 17a and 17b are required to be considered compliant." This section contains three sub-sections:

- Previous Day's adult admissions with confirmed COVID-19 and breakdown by age bracket:**
 - 17a. Total adult: 0
 - 17b. Total adult: 0
- Previous Day's adult admissions with suspected COVID-19 and breakdown by age bracket:**
 - 18-19: 0
- Previous day's pediatric COVID-19 admissions:**
 - 18a. Previous day's pediatric admissions with confirmed COVID-19: 0
 - 18b. Previous day's pediatric admissions with suspected COVID-19: 0

Influenza

Note: Fields 33 - 38 below are optional but can be reported every day except for psychiatric and rehabilitation hospitals who can report weekly. Laboratory confirmation includes detection of influenza virus through molecular tests (e.g., polymerase chain reaction, nucleic acid amplification), antigen detection tests, immunofluorescence tests, and virus culture. For hospital reporting, laboratory-confirmed influenza is defined as Influenza A and B [this includes their subtypes and lineages (e.g., A(H1N1), A(H3N2), B/Victoria, B/Yamagata)]. Parainfluenza and Haemophilus Influenza should not be reported. Any result in the prior 14 days whether completed inpatient or outpatient can be used as the laboratory confirmation.

33. Total hospitalized patients with laboratory-confirmed influenza virus ⓘ

34. Previous day's influenza admissions (laboratory-confirmed) ⓘ

35. Total hospitalized ICU patients with laboratory-confirmed influenza ⓘ

36. Total hospitalized patients co-infected with BOTH laboratory-confirmed COVID-19 AND laboratory-confirmed influenza virus ⓘ
