

listed sand skink (*Neoseps reynoldsi*) incidental to the construction of a residential development (project) in Lake County, Florida. We request public comment on the application, which includes the applicant's HCP, and on the Service's preliminary determination that this HCP qualifies as "low effect," categorically excluded under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

### Project

The applicant requests a 5-year ITP to take sand skinks through the conversion of approximately 1.7 acres (ac) of occupied sand skink foraging and sheltering habitat incidental to the construction of a residential development located on a 34.0-ac parcel in Sections 2, 3, and 11, Township 19 South, Range 25 East, Lake County, Florida, identified by Parcel ID number 02-19-25-0003-000-05100. The applicant proposes to mitigate for take of the sand skinks by the purchase of 3.4 credits from Lake Wales Ridge Conservation Bank or another Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in activities associated with the project on the parcel.

### Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

### Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project—including land clearing, infrastructure building, residence construction, landscaping, construction, other ground disturbance and site preparation activities and the proposed mitigation measures—would individually and cumulatively have a minor or negligible effect on the sand skink and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and that the HCP is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible

effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonable foreseeable similarly situated projects, would not result in significant cumulative effects to environmental values or resources over time.

### Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER0028774 to Troon Creek 2, LLC.

### Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

### Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Earthquake Hazards Program Research and Monitoring

**AGENCY:** U.S. Geological Survey, Interior.

**ACTION:** Notice of information collection; request for comment.

**SUMMARY:** In accordance with the Paperwork Reduction Act (PRA) of 1995, the U.S. Geological Survey (USGS) is proposing to renew an information collection.

**DATES:** Interested persons are invited to submit comments on or before August 22, 2022.

**ADDRESSES:** Written comments and recommendations for the proposed

information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. You may also submit written comments by mail to the U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to [gs-info\\_collections@usgs.gov](mailto:gs-info_collections@usgs.gov). Please reference OMB Control Number 1028-0051 in the subject line of your comments.

**FOR FURTHER INFORMATION CONTACT:** To request additional information about this Information Collection Request (ICR), contact Jill Franks by email at [jfranks@usgs.gov](mailto:jfranks@usgs.gov) or by telephone at 703-648-6716. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

**SUPPLEMENTARY INFORMATION:** In accordance with the PRA and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A Federal Register notice with a 60-day public comment period soliciting comments on this collection of information was published on March 31, 2022 (FR Vol. 87, No. 62, 18810). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

**Abstract:** Research and monitoring findings are essential to fulfilling the USGS's responsibility under the Earthquake Hazards Reduction Act to develop earthquake hazard assessments and to record earthquake activity nationwide. Residents, emergency responders, engineers, and the general public rely on the USGS for this accurate and scientifically sound information. The USGS Earthquake Hazards Program funds external investigators to carry out these important activities. In response to our Program Announcements, investigators submit proposals for research and monitoring activities on earthquake hazard assessments, earthquake causes and effects, and earthquake monitoring. This information is used as the basis for selection and award of projects meeting the USGS Earthquake Hazards Program's objectives. Final Reports of research and monitoring findings are required for each funded proposal; annual progress reports are required for awards of a two- to five-year duration. Final Reports are made available to the general public at the website: <https://www.usgs.gov/programs/earthquake-hazards/science/external-grants-overview>.

**Title of Collection:** Earthquake Hazards Program Research and Monitoring.

**OMB Control Number:** 1028–0051.

**Form Number:** None.

**Type of Review:** Extension of a currently approved collection.

**Respondents/Affected Public:** Research scientists, engineers, and the general public.

**Total Estimated Number of Annual Respondents:** 370 (250 applications and narratives and 120 annual and final reports).

**Total Estimated Number of Annual Responses:** 370 (250 applications and narratives and 120 annual and final reports).

**Estimated Completion Time per Response:** 45 hours per proposal application response and 12 hours per final or annual progress report.

**Total Estimated Number of Annual Burden Hours:** 12,690 (11,250 hours for all respondent applications and narratives and 1,440 hours for all final or annual progress reports).

**Respondent's Obligation:** Participation is voluntary, but necessary to receive benefits.

**Frequency of Collection:** Annually and once every three to five years, depending on the duration of the award.

**Total Estimated Annual Nonhour Burden Cost:** There are no non-hour cost burdens associated with this Information Collection.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

**Jill Franks,**

*Associate Program Coordinator, USGS Earthquake Hazards External Research.*

#### Notice of Inventory Completion: Coe College, Cedar Rapids, IA

**AGENCY:** National Park Service, Interior.  
**ACTION:** Notice.

**SUMMARY:** Coe College, with the assistance of the Office of the State Archaeologist Bioarchaeology Program (previously listed as the Office of the State Archaeologist Burials Program), has completed an inventory of human remains, in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, and has determined that there is no cultural affiliation between the human remains and any present-day Indian Tribes or

Native Hawaiian organizations. Representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to Coe College through the Office of the State Archaeologist Bioarchaeology Program. If no additional requestors come forward, transfer of control of the human remains to the Indian Tribes or Native Hawaiian organizations stated in this notice may proceed.

**DATES:** Representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Coe College through the Office of the State Archaeologist Bioarchaeology Program at the address in this notice by August 22, 2022.

**FOR FURTHER INFORMATION CONTACT:** Dr. Lara Noldner, Office of the State Archaeologist Bioarchaeology Program, University of Iowa, 700 S Clinton Street, Iowa City, IA 52242, telephone (319) 384–0740, email [lara-noldner@uiowa.edu](mailto:lara-noldner@uiowa.edu).

**SUPPLEMENTARY INFORMATION:** Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of Coe College, Cedar Rapids, IA. The human remains were removed from Joe Daviess County, IL and Delaware County, IN.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3) and 43 CFR 10.11(d). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

#### Consultation

A detailed assessment of the human remains was made on behalf of Coe College by the Office of the State Archaeologist Bioarchaeology Program professional staff in consultation with representatives of the Absentee-Shawnee Tribe of Indians of Oklahoma; Bad River Band of the Lake Superior Tribe of Chippewa Indians of the Bad River Reservation, Wisconsin; Cheyenne River Sioux Tribe of the Cheyenne River Reservation, South Dakota; Citizen Potawatomi Nation, Oklahoma; Delaware Nation, Oklahoma; Delaware
