The corrected sentence reads: “The project would have the capacity to deliver up to 880 MW of power to the New England energy grid, satisfying the current PPA total of 704 MW.”

In the same edition of the **Federal Register**, on page 22973, in the second column, line 20 under the heading “Preliminary Proposed Action and Alternatives,” replace the sentence: “The wind turbine generators, offshore substations, array cables, and substation interconnector cables would be located on the [Outer Continental Shelf] approximately 17.4 nautical miles (20 statute miles) south of the coast of Rhode Island.”

The corrected sentence reads: “The wind turbine generators, offshore substations, array cables, and substation interconnector cables would be located on the Outer Continental Shelf (OCS) approximately 15 nautical miles (18 statute miles) southeast of Point Judith, Rhode Island, approximately 13 nautical miles (15 statute miles) east of Block Island, Rhode Island, approximately 7.5 nautical miles (8.5 statute miles) south of Nomans Land Island National Wildlife Refuge (uninhabited island), and between approximately 10 to 12.5

SUPPLEMENTARY INFORMATION: The Partnership on Inclusive

Apprenticeship (PIA) focuses on engagement and outreach strategies to promote and implement inclusive practices within apprenticeship programs, such as those registered with the U.S. Department of Labor’s (DOL) Office of Apprenticeship. These strategies aim to enable individuals with disabilities, including working-age youth and adults ages 16–64, to gain credentials and skills to succeed in growing industries. PIA also seeks to glean federal and state policy options through such outreach and engagement, which includes several stakeholder engagement and outreach activities. The Office of Disability Employment Policy (ODEP) of the U.S. Department of Labor (DOL) intends to design and conduct a process evaluation of the DOL-funded PIA. The goal of this four-year study is to build an understanding of the experiences, barriers, and successes of PIA during the implementation of the partnership.

The overall study is comprised of several components: (1) A knowledge development phase to understand what is currently known about inclusive apprenticeship programs, review the literature on inclusive apprenticeship, and analyze existing data on inclusive apprenticeship; (2) technical assistance to PIA and its partners to understand and enhance their use of data for process improvement; and (3) a process evaluation of the implementation of PIA.

This **Federal Register** Notice provides the opportunity to comment on three proposed data collection instruments that will be used in the evaluations:

1. *Survey of PIA Apprenticeship Intermediary Organizations (AIOs), partners, and community of practice members.* Survey of up to 90 AIOs, partner organizations, and community of practice members to collect information on their role in PIA and their experiences with inclusive apprenticeship programs.

2. *Topic guide for site visit interviews with AIO program staff and partners.* Virtual semi-structured interviews with up to 12 program and partner staff for each of the approximately 6 AIOs partnering under PIA, beginning fall 2021.

3. *Focus group guide for apprentices.* Virtual semi-structured focus groups with up to 60 apprentices enrolled in inclusive apprenticeship programs, assuming that all ten invited apprentices at approximately 6 AIOs partnering under PIA agree to participate, beginning fall 2022.

This information collection is subject to the Paperwork Reduction Act (PRA). A Federal agency generally cannot

conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

The DOL seeks PRA authorization for this information collection for three (3)

years. OMB authorization for an Information Collection Review cannot be for more than three (3) years without renewal. The DOL notes that currently approved information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review.
