

individuals' ability to control, drive, or otherwise operate a CMV safely. It also suggested that that FMCSA consider narrowing the length of time that certain medical issues must be reported. In addition, it provided other comments regarding information on FMCSA's website that were not related to information collection activities or the renewal of this ICR. Those comments will be considered by FMCSA outside of this ICR renewal process.

Regarding the EEOC's suggestions for the MER Form, the information collected in the driver health history section of the MER Form is relevant and necessary to obtain a full health history from the driver. The information obtained facilitates the completion of a thorough examination by the ME. An ME needs all pertinent information to make an appropriate assessment of whether the driver meets the physical qualifications standards. FMCSA emphasizes that the driver health history questions are linked to the physical qualification standards set out in 49 CFR 391.41(b). Most of the standards are worded broadly because many medical conditions may interfere with an individual's ability to operate a CMV safely. Therefore, it is not in the interest of safety for FMCSA to provide less information to the ME.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

Issued under the authority delegated in 49 CFR 1.87.

SUPPLEMENTARY INFORMATION:

Background: On December 16, 2015, FMCSA published a final rule titled "Electronic Logging Devices and Hours of Service Supporting Documents," (80 FR 78292) that established minimum performance and design standards for hours-of-service (HOS) ELDs; requirements for the mandatory use of these devices by drivers currently required to prepare HOS records of duty status (RODS); requirements concerning HOS supporting documents; and measures to address concerns about harassment resulting from the mandatory use of ELDs.

To ensure consistency among ELD vendors and devices, detailed functional specifications were published as part of the December 2015 final rule. Each ELD vendor developing an ELD technology must register online at a secure FMCSA website where the ELD provider can securely certify that its ELD is compliant with the functional specifications. Each ELD vendor must certify that each ELD model and version has been sufficiently tested to meet the functional requirements in the rule

under the conditions in which the ELD would be used.

ELD vendors must self-certify and register their devices with FMCSA online via Form MCSA-5893, "Electronic Logging Device (ELD) Vendor Registration and Certification." FMCSA expects 100% of respondents to submit their information electronically. Once completed, FMCSA issues a unique identification number that the ELD vendor will embed in their device(s). FMCSA maintains a list on its website of the current ELD vendors and devices that have been certified (by the vendors) to meet the functional specifications. The information is necessary for fleets and drivers to easily find a compliant ELD for their use in meeting the FMCSA regulation requiring the use of ELDs.

Title: Electronic Logging Device (ELD) Vendor Registration.

OMB Control Number: 2126-0062.

Type of Request: Renewal of a currently approved collection.

Respondents: ELD vendors.

Estimated Annual Number of Respondents: 75.

Estimated Time per Response: 15 minutes.

Expiration Date: March 31, 2022.

Frequency of Response: On occasion.

Estimated Total Annual Burden: 150 hours [75 respondents × 2 devices per respondent × 4 updates per device × 15 minutes per response].

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize or include your comments in the request for OMB's clearance of this information collection.

Issued under the authority of 49 CFR 1.87.

B. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its regulatory process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.transportation.gov/privacy.

II. Background

On August 31, 2021, FMCSA published a notice announcing its decision to renew exemptions for four individuals from the hearing standard in 49 CFR 391.41(b)(11) to operate a CMV in interstate commerce and requested comments from the public (86 FR 48794). The public comment period ended on September 30, 2021, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with § 391.41(b)(11).

The physical qualification standard for drivers regarding hearing found in § 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5-1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid, 35 FR 6458, 6463 (Apr. 22, 1970) and 36 FR 12857 (July 3, 1971).

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Conclusion

Based upon its evaluation of the four renewal exemption applications, FMCSA announces its decision to exempt the following drivers from the hearing requirement in § 391.41(b)(11).

As of September 12, 2021, and in accordance with 49 U.S.C. 31136(e) and 31315(b), the following four individuals have satisfied the renewal conditions for obtaining an exemption from the
