

policy was consistent with the foreign affairs exemption because the change was central to ongoing negotiations between the two countries.⁵⁸

Third, DHS assesses that there is good cause to find that the delay associated with implementing this process through notice-and-comment rulemaking would be impracticable and contrary to the public interest because of the need for coordination with the GOM described above, and the urgent border and national security and humanitarian interests in reducing and diverting the flow of irregular migration.⁵⁹ It would be impracticable to delay issuance in order to undertake such procedures because—as noted above—maintaining the status quo, which involves record numbers of Venezuelan nationals currently being encountered attempting to enter irregularly at the SWB, coupled with DHS’s extremely limited options for processing, detaining, or quickly removing such migrants, unduly impedes DHS’s ability to fulfill its critical and varied missions. At current rates, a delay of just a few months to conduct notice-and-comment rulemaking would effectively forfeit an opportunity to reduce and divert migrant flows in the near term, harm border security, and potentially result in scores of additional migrant deaths. Undertaking such procedures would also be contrary to the public interest because an advance announcement of this process would seriously undermine a key goal of the policy by incentivizing even more irregular migration of Venezuelan nationals seeking to enter the United States before the process would take effect.

F. Paperwork Reduction Act (PRA)

Under the Paperwork Reduction Act (PRA), 44 U.S.C. chapter 35, all Departments are required to submit to the Office of Management and Budget (OMB), for review and approval, any new reporting requirements they impose. The process announced by this notice requires changes to two collections of information, as follows.

First, OMB has approved a revision to USCIS Form I–134, *Declaration of Financial Support* (OMB control number 1615–0014) under the PRA’s emergency processing procedures at 5 CFR 1320.13. USCIS is making some changes to the online form in connection with the implementation of the process described above. These changes include: requiring two new data elements for U.S.-based supporters (“Sex” and “Social Security Number”);

adding a third marker (“X”) in addition to “M” and “F” in accordance with this Administration’s stated gender equity goals; and adding Venezuela as an acceptable option for the beneficiary’s country of origin. USCIS has submitted and OMB has approved a request for emergency authorization of the required changes (under 5 CFR 1320.13) for a period of 6 months. Within the next 90 days, USCIS will immediately begin normal clearance procedures under the PRA.

Second, OMB has approved an emergency request under 5 CFR 1320.13 for a new information collection from CBP entitled *Advance Travel Authorization*. OMB has approved the emergency request for a period of 6 months and will assign a control number to the collection. This new information collection will allow certain noncitizens from Venezuela, and their qualifying immediate family members, who lack United States entry documents to submit information through the newly developed CBP ATA capability within the CBP One™ application as part of the process to request an advance authorization to travel to the United States to seek parole. Within the next 90 days, CBP will immediately begin normal clearance procedures under the PRA. More information about both collections can be viewed at www.reginfo.gov.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on March 25, 2022 at 87 FR 17099.

A. Overview of Information Collection

Title of Information Collection: Manufactured Home Construction and Safety Standards Program.

OMB Approval Number: 2502-0233.
OMB Expiration Date: November 30, 2022.

Type of Request: Revision of a currently approved collection.

Form Numbers: HUD-101, HUD-203, HUD-203B, HUD-301, HUD-302, HUD-303, HUD-304.

Description of the need for the information and proposed use:

This information collection is used in conjunction with certification labels, which are 2-inch x 4-inch metal tags permanently attached to each section of manufactured homes to provide a unique identifying number to each section of home produced under 24 CFR Chapter XX Part 3280, the Manufactured Home Construction and Safety Standards (Standards). Manufacturers are required to affix labels to all manufactured homes to be sold or leased in the United States, to certify compliance with the Standards in accordance with 24 CFR 3280.11, 24 CFR 3282.204, and 24 CFR 3282.205.

Respondents are both approved Production Inspection Primary Inspections Agencies (IPIAs) as described in 24 CFR 3282.362, and manufacturers, as defined in 24 CFR 3282.7. HUD issues certification labels to IPIAs and those certification labels are re-distributed to manufacturers in accordance with the rules. Manufacturers pay the fee designated in 24 CFR 3284.5. The information collection is necessary to ensure label control, production levels, and provide certification label association to allow the Department to identify a manufactured home after it leaves the plant and to ensure that the certification label fee has been paid. The information will also facilitate any recall or safety-related defect campaigns and provide the data that is needed to pay required fees or credits for program participants in the various states where such homes are manufactured and located.

HUD has updated the number of respondents based on current industry characteristics. The number of manufacturing plants has increased and the number of burden hours per response on the HUD-302 Monthly Production Report has been increased to one hour. Form HUD-203B has been revised to include a field for "Explanation of Damage/Repair." The forms have also been updated to include more precise burden statements.

Respondents: Business or other for-profit; State, Local or Tribal Government.

Estimated Number of Respondents: 151.

Estimated Number of Responses: 5,153.

Frequency of Response: Monthly.

Average Hours per Response: 1.0 burden hour for HUD-302; 0.5 burden hours for all other forms included with this information collection.

Total Estimated Burden: 3,410 hours.
