According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The OMB control number for this information collection is 0579-0327. The time required to complete this information collection is estimated to average 15 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

UNITED STATES DEPARTMENT OF AGRICULTURE ANIMAL AND PLANT HEALTH INSPECTION SERVICE VETERINARY SERVICES

MANUFACTURER APPLICATION FOR APPROVAL OF OFFICIAL ANIMAL IDENTIFICATION DEVICES

Modification of an approved device

Submission of this form by a device manufacturer indicates that they agree to follow the procedures for approval of official animal identification methods and devices contained in the Animal Disease Traceability (ADT) General Standards document and submit all required supporting documentation (see ADT General Standards Part C. Approval of Official Identification Methods and Devices for Animals and the associated appendices, and 9 CFR 79.3(k) for sheep and goats). For more information on ADT and official identification devices visit the ADT Website at http://www.aphis.usda.gov/traceability/.

PURPOSE OF APPLICATION

Initial

Please refer to the Animal Disease Traceability Official Animal Identification Device Standards, Section C: Approval of Official Identification Methods and Devices, and supporting appendices for information on what to include in the application packet.

DEVICE APPLICANT INFORMATION					
Name:		Premises Identification Number (PIN):			
Street Address:					
Street Address 2:					
City:		State:	Postal Code:		
Phone:		Email:			
Primary Contact First Name:		Last Name:			
Phone: Phone 2:		Email:			
Do you plan to be a device/tag manager? (Distribute the approved device) Yes No					
What is the company's role regarding this device? Complete manufacturing, imprinting, and encoding (radio frequency identification (RFID) only) Encoding and/or Imprinting only U.S. Device Manager only (foreign manufacturer) (radio frequency identification (RFID) only)					
What is the bi-weekly production capacity for this device?					
What is the anticipated inventory for this device?					
MANUFACTURING PLANT INFORMATION (if different than above) (If more than one manufacturer, provide additional contact information and locations on a separate sheet)					
Business Name:		Premises Identification Number (PIN):			
Street Address:					
Street Address 2:					
City:		State:	Postal Code:	Country:	
Phone:		Email:			
Primary Contact First Name:		Last Name:			
Phone:	Phone 2:	Email:			
What is the bi-weekly production capacity for this device?					
What is the anticipated inventory for this device?					

DEVICE INFORMATION (If requesting a modification to an existing approved identification device, complete the information below with the new device specifications.)						
Device Name:	Manufacturer Product Code:					
Required International Committee for Animal Recording (ICAR) Conformance and Pe	I formance certifications attached?					
ICAR Product Code:	ICAR Approval Date:					
Device Format: Eartag Type:	Injectable Transponder Other (describe):					
Physical Characteristics: One Piece Two Piece						
Shape: Round Rectangle Strip	Other (describe):					
Primary Material:						
High resolution pictures and diagrams showing all aspects of the device including materials used in each component and measurements (including pictures of all print formats and colors for which approval is requested for sheep and goats tags) emailed to traceability@usda.gov?						
SPECIES (USDA reserves the right to approve methods of identification specific to each species. Additionally, the use of injectable transponders in food animals is subject to FDA and FSIS regulations. Injectable transponders are not an approved official identification method for bison and cattle.)						
Cattle/Bison Deer/Elk	Horses Sheep/Goats Swine					
DEVICE DETAILS						
Low Frequency (LF) 134.2 kHz (must conform to ISO 11784 and 11785)						
Technology type: HDX FDX						
Numbering Format: Animal Identification Number (AIN) National Uniform Eartagging System (NUES)						
Dual (combined low and ultra-high) Frequency Eartag (AIN Numbering format only)						
Visual Only						
For technologies other than RFID, please contact ADT Program Staff at traceability@usda.gov.						
PERFORMANCE AND QUALITY CONTROLS						
I certify that the identification device submitted for approval meets all performed in the ADT General Standards.	ormance and conformance					
Description of the quality control measures detailing the ability to produce consistently and according to the specifications contained in the ADT Ge the full quality control plan and flow diagram for this identification device components, encoding and/or imprinting, shipment and addressing consum If more than one company is involved with the manufacturing of the device control plan is attached for the entity that performs each step and their loc	neral Standards, including from manufacturing of all er complaints, is attached. components, a full quality
