**Non-response follow-up email to the NCES letter requesting the nomination of a mapping coordinator.**

*To: Title, Title I Coordinator, cc: other applicable state staff*

*Subject: 2022 SDRP Mapping Coordinator Nomination*

<Title, Title I Coordinator Name>

This is a follow-up to an e-mail sent to you on <Date nomination letter sent by NCES> by <Name of Commissioner of the NCES>, Commissioner of the National Center for Education Statistics (NCES) regarding the U.S. Census Bureau's 2022 School District Review Program (SDRP). You were asked to designate a mapping coordinator for reviewing the Census Bureau's current school district information for <State name>. The e-mail requested that the designee's contact information and permission to post the contact information on the SDRP website, be sent to the Census Bureau at [geo.school@census.gov](mailto:geo.school@census.gov) within one week of receiving the request.

The Census Bureau has not received a response from <State name>. *Text added for some states: States with county-based school districts such as <State name> do not usually have any changes to report but*

we provide all participants with the opportunity to review our current inventory of school districts and report any needed boundary, name, level, and grade range corrections. When a state has no changes to submit, it is sufficient for the mapping coordinator to send an email to the Census Bureau notifying us there are no changes.

The Census Bureau is conducting the mail out of materials for the 2022 SDRP and would appreciate contact information for the new designee with permission to post the designee's contact information on the SDRP website. This will prevent any further delay in your state receiving its materials and shortening its time to submit school district updates.

A copy of the NCES request is attached for your review and convenience in replying.

Please do not hesitate to contact the SDRP team by phone at 301-763-1099 or by e-mail to [geo.school@census.gov](mailto:geo.school@census.gov) with any questions.
